In the category of most innovative online retail risk management solution, ACI Fraud Management for Merchants was honored for its innovative approach to emerging challenges faced by retailers. ACI Fraud Management is a real-time, multi-layered fraud management solution designed to maximize growth for eCommerce merchants and payment service providers (PSPs).

ACI Fraud Management for Merchants includes a unique combination of artificial intelligence and machine learning-driven patented predictive models, flexible fraud strategies, automated alerts and processes, and unrivalled global fraud intelligence—all supported by a global payment optimization risk team.
