July 20, 2022

MIAMI--(BUSINESS WIRE)--Jul. 20, 2022-- [ACI Worldwide](#) (NASDAQ: ACIW), the global leader in mission-critical, [real-time payments software](#), received further industry recognition with [ACI Fraud Management for Merchants](#) winning the **Most Innovative Fraud Prevention Solution** category at the recent Merchant Payments Ecosystem Awards in Berlin.

An independent panel of leading industry experts chose ACI for its patented incremental learning technology within its real-time fraud management platform, which represents a considerable advancement over the traditional approach to machine learning.

Developed by ACI's Data Science team, incremental learning ensures that fraud scoring models remain relevant through self-learning and continuous adaptation without extensive re-training. It maximizes acceptance rates while reducing fraud, improving operational efficiencies and increasing decision-making transparency around decisioning.

"We are thrilled to be recognized by MPE Awards for the continuous innovation that underpins our approach to fraud management. Innovation is now paramount, as fraud is evolving more rapidly than ever," said Basant Singh, Head of Merchant, ACI Worldwide. This is an area where ACI Fraud Management for Merchants excels in meeting changing merchant needs."
