ACI Worldwide Recognized as Leading Provider of Fraud Orchestration Solutions by Datos Insights

May 15, 2025

OMAHA, Neb.--(BUSINESS WIRE)--May 15, 2025-- ACI Worldwide (NASDAQ: ACIW), an original innovator in global payments technology, has been recognized among leading solutions providers in Datos Insights' latest report on the fraud orchestration solutions market, *Beyond Point Solutions: Orchestrating the Future of Fraud Prevention*.

The report spotlights ACI's Payments Intelligence Framework for its unique visibility across the payments ecosystem, proven scalability with major global financial institutions (FI), real-time processing capabilities, advanced model management, and highly flexible deployment options.

"ACI Worldwide has emerged as a leading provider in a fast-evolving market that demands increasingly sophisticated and flexible solutions for detecting and preventing fraud," said Jim Mortensen, Strategic Advisor at Datos Insights and co-author of the report. "Drawing on a combination of analytics capabilities, extensive network visibility and flexible integrations, ACI offers a comprehensive solution for FIs and merchants seeking fraud prevention and risk management capabilities with robust consortium data benefits."

Key strengths highlighted in the Datos Insights report include:

- **Network visibility:** Visibility into consumer and account behavior across multiple channels, payment types and participant types, including banks, merchants and billers.
- **Actionable intelligence with privacy in mind:** Delivery of precise, consortium-based risk signals without sharing sensitive raw data – ensuring privacy and adherence to regulatory requirements.
- **Modular design:** Allowing organizations to implement capabilities based on their specific needs and existing investments while maintaining the ability to expand capabilities over time.
- **Flexible deployments:** Offering deployment across public cloud, private cloud, on-premises and hybrid models, with seamless third-party integrations for adaptability.
- **Data democratization:** A patented model that allows business users to build and deploy AI/ML models easily, supporting custom, third-party and blended models.

"We are honored to be featured for our leading fraud orchestration solutions," said Cleber Martins, Head of Payments Intelligence and Risk Solutions at ACI Worldwide. "The Datos team's report recognizes our unique position in the market—with extensive visibility across the payments ecosystem—and the technical and analytical strengths of the Payments Intelligence Framework that reflect our commitment to meeting diverse client needs."

ACI supports more than 2,350 banks, including the world's top 10, and more than 80,000 merchants. Its enterprise-grade fraud orchestration solution processes high volumes of transactions in real time with response times under 300 milliseconds, underscoring its scalability and suitability for enterprise deployments.
