

ACI Worldwide To Solicit Proxies Against Proposed S1-Fundtech Transaction

ACI's Cash and Stock Proposal Provides S1 Shareholders with Immediate Cash Value and Significant Upside Potential

NEW YORK, August 15, 2011 – ACI Worldwide, Inc. (Nasdaq: ACIW), a leading international provider of payment systems, today announced that it has filed preliminary proxy materials with the Securities and Exchange Commission (“SEC”) in connection with the solicitation of votes against proposals related to the proposed merger of S1 Corporation (Nasdaq: SONE) and Fundtech Ltd. (Nasdaq: FNDD).

“As we have said from the outset, ACI remains ready and willing to complete our proposed acquisition of S1. Our filing of preliminary proxy materials to solicit against the proposed Fundtech transaction reflects our commitment to this goal,” said Philip G. Heasley, President and Chief Executive Officer of ACI. “We expect that many S1 shareholders share our strong belief that ACI’s acquisition proposal is superior to and provides S1 shareholders with significantly greater value than the proposed transaction with Fundtech. We strongly encourage all S1 shareholders – the true owners of the company – to send a message that the S1 Board of Directors cannot ignore by voting against the proposed Fundtech transaction.”

As described in the preliminary proxy materials, ACI believes that the proposed S1-Fundtech transaction is not in the best interests of S1 shareholders and that S1 shareholders should vote “AGAINST” the proposed S1/Fundtech combination because ACI believes, among other things, that:

- A vote “AGAINST” the proposed Fundtech transaction preserves the opportunity for S1’s shareholders to receive a premium price contemplated by ACI’s proposal that ACI believes would provide significantly greater value to S1 shareholders than the Fundtech transaction;
- A vote “AGAINST” the proposed Fundtech transaction stops the S1 Board from entering into a transaction that results in a radical restructuring of S1’s business, ownership and governance for no premium or cash to S1 shareholders;
- A vote “AGAINST” the proposed Fundtech transaction sends a strong message to S1’s Board that S1 shareholders want S1’s Board to consider other alternatives for the company, including ACI’s proposal;
- ACI’s proposal provides immediate cash value to S1’s shareholders, as well as the opportunity to participate in the value creation of a combined ACI-S1;
- The complementary nature of ACI and S1 creates a compelling opportunity to establish a full-service global leader of financial and payments software with greater scale, financial strength and cross-selling opportunities than a combined S1-Fundtech; and
- ACI’s proposal is expected to create greater financial benefits, including a significant amount of cost savings that are estimated to be more than twice those contemplated in the Fundtech transaction.

ACI has secured committed financing from Wells Fargo Bank, N.A. for the cash portion of the transaction. It is anticipated that the proposed transaction could close as early as the fourth quarter.
