

JCB Upgrades Capacity and Extends Agreement for ACI Payments Software

(Omaha, Neb. – 12 June 2007) — ACI Worldwide (NASDAQ: TSAI), a leading international provider of software for electronic payment systems, today announced that JCB Co., Ltd. increased its card processing capacity with ACI's BASE24® software to accommodate future growth in international transactions. JCB also agreed to leverage the solution for an additional five years.

JCB has been an ACI customer for the past decade, having migrated their payment system to BASE24 as part of a strategy to expand their international business and increase card acceptance globally. The company used ACI software to implement a switch in the United States, while retaining authorization functions in Japan.

"ACI's products are the gold-standard in the industry," said Hiroaki Suwabe, senior vice president of international systems planning at JCB. "We chose ACI not only for the quality of its products but also for its unmatched experience in the card industry."

JCB currently operates its BASE24 solution to process JCB transactions in the United States. BASE24's flexibility and scalability ensure that JCB's system will accommodate increasing transaction volumes.

"As the JCB brand expands its geography, we look forward to further strengthening our partnership with ACI," Suwabe said. "ACI's products can grow with both our business and our transaction volumes."

"ACI looks forward to maintaining a strong, long-term partnership with JCB," said Jeremy Wilmot, president of ACI Asia/Pacific. "BASE24 is a solution that will grow with our customer's business, so JCB will always be able to count on ACI to meet its processing needs."

About JCB

JCB is a major global payment brand and one of the leading credit card issuers and acquirers in Japan. JCB launched its card business in Japan in 1961 and began expanding overseas in 1981. Its merchant network includes 14 million merchants and spans 190 countries and territories. JCB cards are now issued in 20 countries and territories, with more than 59 million card members. As part of its international growth strategy, JCB has formed alliances with more than 350 leading banks and financial institutions globally to increase merchant coverage and card member base. As a comprehensive payment solution provider, JCB commits to provide responsive and high-quality service and products to all customers worldwide.
