THE SHARE EXCHANGE

Pursuant to the Stock Exchange Agreement, the Company is to acquire all of the issued and outstanding shares of Grapevine Class A Common Stock and Grapevine Class B Common Stock, in exchange for shares of TSA Class A Common Stock. The total number of shares of TSA Class A Common Stock to be issued to shareholders of Grapevine in connection with the Share Exchange is 370,000 shares, subject to adjustment in the event that the average per share closing price of the Company's Class A Common Stock on the Nasdaq National Market for the five business days after the Registration Statement is declared effective by the SEC is less than \$30.00 per share or more than \$40.00 per share.

The Stock Exchange Agreement contains various representations and warranties and covenants by TSA, Grapevine and the Principal Shareholders, and the obligations of such parties are subject to certain conditions. See "Terms of the Stock Exchange Agreement."

Conditions to the Share Exchange include, among others, (i) the Grapevine shareholders have approved the Grapevine Plan of Share

Exchange, (ii) the Registration Statement has become effective under the Securities Act of 1933 and has not been the subject of any stop order or proceeding seeking a stop order; and (iii) the Grapevine Articles of Share Exchange have been declared effective. Otherwise, no federal or state regulatory requirements must be complied with and no federal or state regulatory approvals must be obtained in connection with the Share Exchange.

REASONS FOR THE SHARE EXCHANGE

Grapevine's reasons for agreeing to the Share Exchange include, among others, that TSA's global distribution and support network will permit Grapevine to distribute its products around the world more quickly and cost effectively. See "Reasons for the Share Exchange."

TSA's reasons for acquiring Grapevine pursuant to the Share Exchange include, among others, the acquisition of new products which are used to manage complex front-end networks and support a variety of hardware platforms. See "Reasons for the Share Exchange."

CERTAIN FEDERAL INCOME TAX CONSEQUENCES

The Stock Exchange Agreement provides that the parties intend to adopt the agreement as a tax-free plan of reorganization and to consummate the Share Exchange in accordance with the provisions of Section 368(a)(1)(B) of the Code. TSA, Grapevine and the Principal Shareholders have each agreed not to, either before or after the Share Exchange, take any action that would prevent the Share Exchange from qualifying as a reorganization under Section 368(a)(1)(B) of the Code. See "Certain Federal Income Tax Consequences."

ACCOUNTING TREATMENT

Grapevine and TSA intend that the Share Exchange be treated as a "pooling of interests" for accounting purposes. The Stock Exchange Agreement provides that consummation of the Share Exchange is conditioned upon the receipt by TSA of an opinion from TSA's independent auditors to the effect that the Share Exchange qualifies for accounting treatment as a "pooling of interests" if consummated in accordance with the Stock Exchange Agreement. See "Accounting Treatment."

RESALE RESTRICTIONS

All shares of TSA Class A Common Stock issued in connection with the Share Exchange will be freely transferrable, except that shares of TSA Class A Common Stock received by persons who are deemed to be "affiliates" (as such term is defined under the Securities Act) of Grapevine prior to the Share Exchange may be resold by them only if certain requirements are satisfied. See "Resale Restrictions."

COMPARISON OF STOCKHOLDER RIGHTS

Upon consummation of the Share Exchange, holders of Grapevine Class A Common Stock and holders of Grapevine Class B Common Stock will become holders of TSA Class A Common Stock, and their rights will be governed by the Delaware General Corporation Law, the Amended and Restated Certificate of Incorporation of TSA, as amended, and the Amended and Restated Bylaws of TSA, which differ in certain material respects from the Nebraska Business Corporation Act, the Articles of Incorporation of Grapevine, as amended, and the Bylaws of Grapevine, as amended. See "Comparison of Stockholder Rights."

THE FOLLOWING DISCUSSION IS NOT A COMPLETE STATEMENT OF NEBRASKA LAW PERTAINING TO DISSENTERS' RIGHTS AND IS QUALIFIED IN ITS ENTIRETY BY REFERENCE TO ANNEX A HERETO.

WRITTEN NOTICE AND VOTING

If a holder of Grapevine Class A Common Stock elects to exercise his or her dissenters' rights and demand payment of the fair value of his or her shares of Grapevine Class A Common Stock, the holder must satisfy both of the following conditions, as well as the applicable procedural requirements: (i) the holder must deliver to Grapevine prior to the vote at the Special Meeting a written notice of the holders' intent to demand payment for his or her shares if the Share Exchange is effectuated, and (ii) the holder may not vote his or her shares in favor of the Share Exchange or the Stock Exchange Agreement. Such written notice should be sent to David P. Stokes, General Counsel and Secretary, Transaction Systems Architects, Inc., 330 South 108th Avenue, Omaha, Nebraska 68154.

A holder of Grapevine Class A Common Stock who does not deliver the written notice described above or who votes in favor of the approval of the Stock Exchange Agreement is not entitled to demand payment for his or her Grapevine Class A Common Stock.

DISSENT BY NOMINEES AND BENEFICIAL OWNERS

A record shareholder may assert dissenters' rights as to fewer than all shares registered in his or her name only if he or she dissents with respect to all shares beneficially owned by any one person and notifies the corporation in writing of the name and address of each person on whose behalf he or she asserts dissenters' rights. The rights of a partial dissenter shall be determined as if the shares as to which he or she dissents and his or her other shares were registered in the name of different shareholders.

A beneficial shareholder may assert dissenters' rights as to shares held on his or her behalf only if: (a) he or she submits to TSA the record shareholder's written consent to the dissent not later than the time the beneficial shareholder asserts dissenters' rights; and (b) he or she does so with respect to all shares of which he or she is the beneficial shareholder or for which he or she has power to direct the vote.

DISSENTERS' NOTICE

If the Stock Exchange Agreement is approved, TSA will deliver a written dissenters' notice (the "Dissenters' Notice") to each holder of Grapevine Class A Common Stock who delivered written notice of his or her intent to dissent prior to the vote at the Special Meeting and did not vote his or her shares in favor of the Share Exchange ("Dissenting Shareholder") no later than ten days after such approval. The Dissenters' Notice must (i) state where the payment demand must be sent and where and when certificates for certificated shares shall be deposited; (ii) inform holders of uncertificated shares to what extent transfer of the shares will be restricted after the payment demand is received; (iii) supply a form for demanding payment that includes the date of the first announcement to media or shareholders of the terms of the Share Exchange and requires that the Dissenting Shareholder certify whether or not he or she acquired beneficial ownership of his or her Grapevine Class A Common Stock before that date; (iv) set a date by which TSA must receive the payment demand which date may not be fewer than thirty nor more than sixty days after the date the Dissenters' Notice is delivered; and (v) be accompanied by a copy of Sections 21-20,137 to 21-20,150 of the NBCA.

DUTY TO DEMAND PAYMENT

The Dissenting Shareholder must demand payment, certify whether he or she acquired beneficial ownership of his or her shares of Grapevine Class A Common Stock before the date set forth in the Dissenters' Notice, and deposit his or her certificates in accordance with the terms of the Dissenters' Notice, in order to preserve his or her statutory Dissenters' rights. A Dissenting Shareholder who demands payment and deposits stock certificates in accordance with the Dissenters' Notice retains all other rights of a shareholder until such rights are cancelled or modified by the effectuation of the Share Exchange. A Dissenting Shareholder who fails to demand payment or deposit stock certificates as required by the Dissenters' Notice by the respective date set forth therein is not entitled to payment for his or her shares under Sections 21-20,137 to 21-20,150 of the NBCA.

PAYMENT

As soon as the Share Exchange is effectuated, or upon receipt of a payment demand, TSA will pay each Dissenting Shareholder who complied with the statutory conditions the amount TSA estimates to be the fair value of his or her shares of Grapevine Class A Common Stock, plus accrued interest. Such payment will be accompanied by (i) TSA's balance sheet as of the end of a fiscal year ending not more than sixteen months before the date of payment, an income statement for that year, a statement of changes in shareholders' equity for that year, and the latest available interim financial statements, if any; (ii) statement of TSA's estimate of the fair value of the shares; (iii) an explanation of how the interest was calculated; (iv) a statement of the dissenters' right to demand payment if dissatisfied under Section 21-20,148 of the NBCA; and (v) a copy of Sections 21-20,137 to 21-20,150 of the NBCA.

AFTER-ACQUIRED SHARES

TSA may elect to withhold payment from a Dissenting Shareholder who acquired beneficial ownership of his or her shares of Grapevine Class A Common Stock after the date set forth in the Dissenters' Notice as the date of the first announcement to news media or to shareholders of the terms of the Share Exchange or the Stock Exchange Agreement ("Post Announcement Shareholders"). To the extent TSA elects to withhold payment from such shareholders, it will estimate the fair value of the shares, plus accrued interest and pay this amount to each Post Announcement Shareholder who agrees to accept it in full satisfaction of his or her demand. TSA will send with its offer a statement of its estimate of the fair value of the shares, an explanation of how the interest was calculated and a statement of the dissenters' right to demand payment if dissatisfied under Section 21-20,148 of the NBCA.

PROCEDURE IF SHAREHOLDER DISSATISFIED

Within thirty days after (i) TSA pays the Dissenting Shareholders its estimate of the fair value of their shares or (ii) TSA offers to pay the Post Announcement Shareholders their estimate of the fair value of their shares, each such shareholder may notify TSA in writing of his or her own estimate of the fair value of his or her shares and amount of interest due, and demand payment of his or her estimate, less any payment received from TSA, or reject TSA's offer and demand payment of the fair value of his or her shares and interest due ("Secondary Payment Demand") if: (a) the Dissenting Shareholder believes that the amount paid or offered is less than the fair value of his or her shares or that the interest due is incorrectly calculated; (b) TSA fails to make payment within sixty days after the date set for demanding payment; or (c) TSA, having failed to consummate the Share Exchange, does not return the deposited certificates or release the transfer restrictions imposed on uncertificated shares within sixty days after the date set for demanding payment.

COURT ACTION

If a Secondary Payment Demand remains unsettled, TSA will commence a proceeding within sixty days after receiving the Secondary Payment Demand and petition the District Court of Douglas County, Nebraska to determine the fair value of the shares and accrued interest. If TSA does not commence the proceeding within the sixty-day period, it will pay each Dissenting Shareholder whose demand remains unsettled the amount demanded. All Dissenting Shareholders whose claims remain unsettled at such time will be made parties to those proceedings. Each Dissenting Shareholder made a party to the proceeding shall be entitled to a judgment (a) for the amount, if any, by which the court finds the fair value of his or her shares, plus interest, exceeds the amount paid by the corporation or (b) for the fair value, plus accrued interest, of his or her after-acquired shares for which TSA elected to withhold payment.

COURT COSTS AND ATTORNEY'S FEES

The court, in an appraisal proceeding, will determine all costs of the proceeding, including the reasonable compensation and expenses of appraisers appointed by the court. The court will assess the costs against TSA, except that the court may assess costs against all or some of the Dissenting Shareholders, in amounts the court finds equitable, to the extent the court finds the Dissenting Shareholders acted arbitrarily, vexatiously or not in good faith in demanding payment. The court may also assess the attorney's fees and expenses and the fees and expenses of experts

for the respective parties in amounts the court finds equitable: (a) against TSA and in favor of any or all Dissenting Shareholders if the court finds TSA did not substantially comply with the requirements of Sections 21-20,140 to 21-20,148; or (b) against either TSA or a Dissenting Shareholder, in favor of any other party, if the court finds that the party against whom fees and expenses are assessed acted arbitrarily, vexatiously or not in good faith. Finally, if the court finds that the services of counsel for any dissenter were of substantial benefit to other dissenters similarly situated and that the fees for such services should not be assessed against TSA, the court may award to counsel reasonable fees to be paid out of amounts awarded to the Dissenting Shareholders who were benefited.

CONTACTS BETWEEN TSA AND GRAPEVINE

TSA has purchased professional services from Grapevine. Revenues to Grapevine from these purchases for the nine months ended June 30, 1996 and fiscal years 1995, 1994 and 1993, have been approximately \$405,000, \$52,000, \$154,000 and \$412,000, respectively. Pursuant to certain Development Agreements between Applied Communications, Inc. and U.S. Software, Inc. (subsidiaries of TSA) and Grapevine, TSA and Grapevine have established a continuing arrangement under which Grapevine supports TSA in designing, developing, testing, maintaining and enhancing TSA software products.

Prior to the commencement of negotiation of the Share Exchange, there were no negotiations or understandings regarding an acquisition of Grapevine by TSA. Negotiations commenced in April 1996 and resulted in a non-binding letter of intent dated May 22, 1996. Subsequent negotiations resulted in the signing of the Stock Exchange Agreement on July 15, 1996. Prior to negotiation of the letter of intent, however, members of management of the respective companies had informal contacts primarily as a result of their location in the same city, the prior employment of members of Grapevine's management by Applied Communications, Inc., which is now a subsidiary of TSA, and the related nature of the respective businesses. General discussions concerning a possible acquisition of Grapevine by TSA occurred from time to time during such informal contacts.

REASONS FOR THE SHARE EXCHANGE

Grapevine's reasons for agreeing to the Share Exchange include the following:

(i) TSA's global distribution and support network will permit Grapevine to distribute its products around the world more quickly and cost effectively;

(ii) The expectation that the Share Exchange will result in certain economies of scale making the operation of the business of Grapevine more cost effective.

(iii) The acquisition by TSA is expected to make more financial resources available to expand the Grapevine business.

(iv) The Share Exchange will provide the shareholders of Grapevine with a more liquid investment. There is no established trading market for the Grapevine Class A Common Stock or the Grapevine Class B Common Stock. If the Share Exchange is consummated, Grapevine Shareholders will receive TSA Class A Common Stock which is currently traded on the Nasdaq National Market.

(v) It is expected that the Share Exchange will afford the Grapevine shareholders the opportunity to receive shares of TSA Class A Common Stock in a transaction that is nontaxable for federal income tax purposes.

TSA's reasons for acquiring Grapevine pursuant to the Share Exchange include the following:

(i) The acquisition of new products which are used to manage complex front-end networks and support a variety of hardware platforms including Stratus, Sun, Tandem and the IBM RS/6000. This is consistent with TSA's goal of offering proven solutions on multiple platforms.

(ii) The Share Exchange will provide TSA with a new presence in a number of industries including the manufacturing, health care, gaming, on-line services, and brokerage industries. The Share Exchange will also expand TSA's presence in the banking industry.

(iii) The addition of Grapevine's qualified technical staff to TSA's existing staff.

TERMS OF THE STOCK EXCHANGE AGREEMENT

The following is a brief summary of the Stock Exchange Agreement. This summary is qualified in its entirety by reference to the Stock Exchange Agreement which is attached hereto, together with the Plan of Share Exchange, as Annex B, was filed as an exhibit to the Registration Statement and is incorporated herein by reference.

CLOSING OF THE SHARE EXCHANGE

If the Stock Exchange Agreement is not terminated prior to closing, the closing of the Share Exchange (the "Closing") will take place as soon as practicable after the parties are in a position to satisfy or waive the conditions precedent to the Share

Exchange described below. The Closing will take place at a date and time to be mutually agreed upon by the parties but not later than twenty business days after the Registration Statement is declared effective by the SEC (the "Closing Date").

SHARE EXCHANGE

On the Closing Date, subject to the terms and conditions of the Share Exchange Agreement, the holders of Grapevine Class A Common Stock and the holders of Grapevine Class B Common Stock will exchange all of their shares for TSA Class A Common Stock as follows:

(i) Each share of Grapevine Class A Common Stock outstanding immediately prior to the Closing Date shall be exchanged for .2074 of a share of TSA Class A Common Stock.

(ii) Each share of fully vested Grapevine Class B Common Stock outstanding immediately prior to the Closing Date shall be exchanged for .1971 of a share of TSA Class A Common Stock.

(iii) Each share of twenty-five percent vested Grapevine Class B Common Stock outstanding immediately prior to the Closing Date shall be exchanged for .1675 of a share of TSA Class A Common Stock.

(iv) Each share of fifty percent vested Grapevine Class B Common Stock outstanding immediately prior to the Closing Date shall be exchanged for .1774 of a share of TSA Class A Common Stock.

(v) Each share of seventy-five percent vested Grapevine Class B Common Stock outstanding immediately prior to the Closing Date shall be exchanged for .1872 of a share of TSA Class A Common Stock.

The total number of shares of TSA Class A Common Stock to be issued in the Share Exchange (i.e., 370,000) and the exchange ratios described above will be adjusted in the event that the average per share closing price of TSA Class A Common Stock on the Nasdaq National Market for the five business days after the Registration Statement is declared effective by the SEC ("Average Closing Price") is less than thirty dollars per share or more than forty dollars per share. If the Average Closing Price is less than thirty dollars per share, then the total number of shares of TSA Class A Common Stock to be issued in the Share Exchange will be determined by dividing \$11,100,000 (which is 370,000 x \$30.00) by the Average Closing Price. If the Average Closing Price is greater than forty dollars per share, then the total number of shares of TSA Class A Common Stock to be issued in the Share Exchange will be determined by dividing \$14,800,000 (which is 370,000 x \$40.00) by

the Average Closing Price. In the case of either such adjustment, the exchange ratios described above will be adjusted proportionately.

On the Closing Date, TSA will deliver for exchange certificates evidencing TSA Class A Common Stock in exchange for the outstanding shares of Grapevine Class A Common Stock and Grapevine Class B Common Stock. No fractional shares of TSA Class A Common Stock will be issued in connection with the Share Exchange. In lieu of any such fractional shares, each holder of shares of Grapevine Class A Common Stock or Grapevine Class B Common Stock who would otherwise have been entitled to receive a fraction of a share of TSA Class A Common Stock upon surrender of stock certificates for exchange will be entitled to receive from TSA a cash payment equal to such fraction multiplied by the Average Closing Price.

EFFECT OF SHARE EXCHANGE UNDER NEBRASKA BUSINESS CORPORATION ACT

The Share Exchange Agreement provides that Articles of Share Exchange shall be filed with the Secretary of State of Nebraska as soon as practicable after the Closing. The effective date of the Articles of Share Exchange (the "Effective Date") as specified in the Plan of Share Exchange will be the Closing Date or such other date as the parties may mutually agree upon. The Stock Exchange Agreement further provides that, subject to the terms and conditions therein, TSA will acquire all of the Grapevine Class A Common Stock and Grapevine Class B Common Stock in a statutory share exchange pursuant to a Plan of Share Exchange and in accordance with applicable provisions of Delaware and Nebraska law so as to cause each share of Grapevine Class A Common Stock and Grapevine Class B Common Stock that is issued and outstanding immediately prior to the Effective Date to be exchanged for the number of fully paid and nonassessable shares of TSA Class A Common Stock calculated in accordance with the ratios described above without further action on the part of any holder thereof.

TAX-FREE REORGANIZATION

The Stock Exchange Agreement provides that the parties intend to adopt the agreement as a tax-free plan of reorganization and to consummate the Share Exchange in accordance with the provisions of Section 368(a)(1)(B) of the Internal Revenue Code of 1986, as amended (the "Code").

POOLING OF INTERESTS

The parties intend the Share Exchange to be treated as a "pooling of interests" for accounting purposes.

The Stock Exchange Agreement contains various representations and warranties of Grapevine and the Principal Shareholders relating to, among other things, (a) the due organization, power and standing of Grapevine; (b) the execution, delivery, performance, authorization and enforceability of the Stock Exchange Agreement, the Plan of Share Exchange, and the Articles of Share Exchange; (c) governmental authorizations; (d) conflicts under the Articles of Incorporation or Bylaws of Grapevine, violations of any law, judgment or order applicable to Grapevine, defaults under any agreements, and creation of liens; (e) the capitalization of Grapevine; (f) subsidiaries of Grapevine; (g) financial statements of Grapevine; (h) receivables of Grapevine; (i) compliance with laws; (j) notice of defaults; (k) litigation; (l) absence of certain changes; (m) certain agreements; (n) employee benefits; (o) major contracts; (p) tax returns; (q) interests of officers, directors and other affiliates of Grapevine; (r) intellectual property; (s) restriction on business activities; (t) title to properties, absence of liens and encumbrances, condition of equipment; (u) governmental authorizations and licenses; (v) environmental matters; (w) insurance; (x) labor matters; (y) employees; (z) customers; (aa) finders' fees; (bb) information supplied; and (cc) Grapevine shareholders. The representations and warranties of Grapevine and the Principal Shareholders survive the execution and delivery of the Stock Exchange Agreement and the Closing Date. However, the representations and warranties of the Principal Shareholders expire on the first anniversary of the Closing Date in the absence of actual fraud.

The Stock Exchange Agreement contains various representations and warranties of TSA relating to, among other things: (a) the due organization, power and standing of TSA; (b) the execution, delivery, performance, authorization and enforceability of the Stock Exchange Agreement; (c) governmental consents and approvals; (d) conflicts under the Articles of Incorporation or Bylaws of TSA, violation of any law, judgement or order applicable to TSA or any other subsidiary of TSA, defaults under any agreements binding upon TSA or any subsidiary of TSA, and creation of liens; (d) the capitalization of TSA; (e) TSA's delivery to Grapevine of certain SEC filings; (f) financial statements of TSA; (g) absence of certain changes; (h) compliance with laws; and (i) finders' fees. The representations and warranties of TSA survive the execution and delivery of the Stock Exchange Agreement and the Closing Date.

COVENANTS

Under the Stock Exchange Agreement, Grapevine and the Principal Shareholders have made certain covenants including, among other things, that until the Closing Date (a) Grapevine will conduct its business in the ordinary course in all material respects; (b) Grapevine will not adopt or propose any change in its articles of incorporation or bylaws; (c) Grapevine will not enter into any contract, agreement, plan or arrangement covering any director, officer or employee of Grapevine that provides for the making of any payments, acceleration or vesting of any benefit or right or any other entitlement contingent upon (A) the Share Exchange or (B) the termination of employment after the occurrence of any such contingency if such payment, acceleration, or entitlement would not have been provided for by such contingency; (d) Grapevine will not issue any common stock or other securities; (e) Grapevine will keep in full force and effect all its existing insurance and will not modify or reduce the coverage thereunder; (f) Grapevine will not transfer or otherwise dispose of any of its material assets, including intellectual property rights, and will not pay any dividend or make any distribution to holders of its capital stock; (g) Grapevine will give TSA and its authorized representatives access to certain information and will furnish to TSA and its authorized representatives such information with respect to the business of Grapevine as may reasonably be requested; and (h) Grapevine will deliver to TSA a monthly balance sheet and statement of operations.

In addition, Grapevine and the Principal Shareholders also agreed that, until the earlier of the Closing Date or the termination of the Stock Exchange Agreement, Grapevine and its officers, directors, employees or other agents will not, directly or indirectly, (i) take any action to solicit, initiate or encourage the making of any acquisition proposal, or (ii) engage in any negotiations with, or, except as required by a court of competent jurisdiction, disclose any non-public information relating to Grapevine or afford access to the properties, books or records of Grapevine to any person or entity that may be considering making or has made an acquisition proposal.

TSA has made certain covenants including, among other things, that (a) until the Closing Date, TSA will give Grapevine and its authorized representatives access to all information regarding TSA which may be reasonably requested by Grapevine or such representative; (b) upon consummation of the Share Exchange, TSA will offer Stephen J. Royer, James J. McFadden and Michael F. Benson compensation plans similar to those for executives in similar positions with other TSA subsidiaries; (c) upon consummation of the Share Exchange, TSA will establish a bonus compensation plan for Grapevine employees consistent with the bonus plan for other TSA operating entities or units; and (d) in connection with the issuance of TSA Class A Common Stock in the

Share Exchange, TSA will promptly prepare and file with the SEC under the Securities Act of 1933 a registration statement and shall use all reasonable efforts to cause such registration statement to be declared effective as promptly as practicable, and TSA will take any action required to be taken under state securities or "blue sky" laws in connection with such issuance.

TSA, Grapevine and the Principal Shareholders have agreed, among other things, that (a) each party will promptly advise the others in writing (i) of certain events that would render any representation or warranty contained in the Stock Exchange Agreement untrue, inaccurate or misleading in any material respect and (ii) of any material adverse change in the business condition of the party and its subsidiaries, taken as a whole; (b) prior to the Closing Date, execute and file any application or any other document that may be necessary in order to obtain certain regulatory approvals which may be reasonably required or that a party may reasonably request in connection with the consummation of the Share Exchange; (c) prior to the Closing Date, obtain such written consents and take such other action as may be necessary or appropriate to allow the consummation of the Share Exchange; (d) no party will take any action that will prevent the Share Exchange from qualifying as a reorganization under Section 368(a)(1)(B) of the Code or prevent the transaction from qualifying for the pooling of interest method of accounting; and (e) the timing and content of all public announcements regarding the Share Exchange will be determined solely by TSA. In addition, TSA and Grapevine have agreed not to directly or indirectly divulge to any person or entity or use certain confidential information, except as required for the performance of their respective duties under the Stock Exchange Agreement, unless expressly authorized by the other in writing. The covenants of TSA and Grapevine with respect to confidential information will survive the termination of the Stock Exchange Agreement.

CONDITIONS TO THE SHARE EXCHANGE

The obligations of TSA under the Stock Exchange Agreement are subject to the fulfillment or satisfaction, on and as of the Closing Date, of each of the following conditions (unless waived in writing by TSA): (a) the accuracy of the representations and warranties of Grapevine and the Principal Shareholders on and as of the Closing Date and the compliance by Grapevine and the Principal Shareholders with their covenants contained in the Stock Exchange Agreement in all material respects on or before the Closing Date; (b) there shall have been no material adverse change in Grapevine since May 31, 1996; (c) all written consents, assignments, waivers or authorizations that are required as a result of the Share Exchange for the continuation in full force and effect of any material contracts or leases of Grapevine have been obtained; (d) the Grapevine shareholders have approved the Grapevine Plan of

Share Exchange; (e) Grapevine shareholders have executed and delivered stock certificates and related stock powers for all their shares of Grapevine Class A Common Stock and Grapevine Class B Common Stock to the Principal Shareholders who have in turn delivered such stock certificates and stock powers to TSA, and such stock certificates and stock powers shall be in forms reasonably satisfactory to TSA; (f) TSA has received written assurance from its financial advisors that the Share Exchange will qualify for pooling of interests accounting; (g) the Registration Statement has become effective under the Securities Act of 1933 and has not been the subject of any stop order or proceeding seeking a stop order; and (h) the Grapevine Articles of Share Exchange has been declared effective and the number of dissenting shares to the Plan of Share Exchange does not exceed 10% of the Grapevine outstanding shares.

The obligations of Grapevine and the Principal Shareholders under the Stock Exchange Agreement are subject to the fulfillment or satisfaction on or as of the Closing Date of each of the following conditions (unless waived in writing by Grapevine): (a) the accuracy of the representations and warranties of TSA on and as of the Closing Date and the compliance by TSA with its covenants contained in the Stock Exchange Agreement in all material respects on or before the Closing Date; and (b) there have been no material adverse changes in TSA since March 31, 1996.

INDEMNIFICATION

The Stock Exchange Agreement provides that if the Closing of the Share Exchange occurs, then the Principal Shareholders severally shall indemnify and hold harmless TSA and its affiliates from and against: (i) all damages arising from any misrepresentation or breach of warranty, covenant or agreement made by the Principal Shareholders in their representations and warranties to TSA contained in the Stock Exchange Agreement and any breach by Grapevine or the Principal Shareholders of any covenant or agreement on its or his part contained in the Stock Exchange Agreement; and (ii) all damages arising from any liability for certain taxes payable by Grapevine, for any fiscal periods ending on or prior to the Closing Date and for certain taxes payable by any of such entities for the portion ending on the Closing Date of any fiscal period beginning prior to the Closing Date. The Stock Exchange Agreement further provides that each Principal Shareholder must indemnify for the damages described above but in no event shall the Principal Shareholders collectively be required to indemnify TSA for an amount in excess of 5% of the total value of the shares of TSA Class A Common Stock exchanged valued at the Closing price of TSA Class A Common Stock on the Nasdaq National Market on the business day prior to the Closing Date, provided that the total value of the TSA Class A Common Stock exchanged cannot be less than \$11,100,000 or more than \$14,800,000. Payment of any indemnity will be made by transferring TSA Class A Common Stock

valued at the closing price determined by the result of dividing the actual exchange value by the total number of shares of TSA Class A Common Stock exchanged. If the Principal Shareholders dispute the amount of damages or fail to pay damages after demand therefor, the matter of the determination of damages and the enforcement of the indemnification provided in the Stock Exchange Agreement will be submitted for binding arbitration. Any obligation of the Principal Shareholders under the Stock Exchange Agreement to indemnify and hold harmless TSA and its affiliates applies only to claims made prior to the first anniversary of the Closing Date in the absence of actual fraud.

The Stock Exchange Agreement further provides that the Principal Shareholders are entitled to assume the defense of any claims for which TSA seeks indemnification from the Principal Shareholders under the Stock Exchange Agreement and which are brought by parties unaffiliated with TSA. If the Principal Shareholders elect in writing to assume the defense of any lawsuit or action with respect to any claim for which TSA is seeking indemnification under the Stock Exchange Agreement, the Principal Shareholders must take control of the defense and investigation of such lawsuit or action and must employ and engage an attorney acceptable to TSA to defend the same, at the Principal Shareholders' cost. TSA has the right to employ counsel with respect to any such claim, but the fees and expenses of such counsel shall be at the expense of TSA unless (i) the employment of counsel by TSA has been authorized in writing by the Principal Shareholders, or (ii) the Principal Shareholders have not employed counsel to assume the defense of such claim, in each of which case, the fees and expenses of counsel will be at the expense of the Principal Shareholders. Regardless of which part is controlling the defense of any claim, no settlement of such claim may be agreed to without the written consent of both the Principal Shareholders and TSA, which consent may not be unreasonably withheld.

TERMINATION

The Stock Exchange Agreement will terminate if the Closing Date does not occur within twenty days after the Registration Statement is declared effective by the SEC, unless otherwise agreed by the parties. In addition, the Stock Exchange Agreement may be terminated at any time prior to the Closing Date: (i) by a mutual written consent of the Board of Directors of TSA and the Board of Directors of Grapevine; (ii) by TSA, if (A) there has been a breach by Grapevine or the Principal Shareholders of any of their representations and warranties under the Stock Exchange Agreement, such that such representations and warranties are not true and accurate in all material respects on and as of the Closing Date or (B) there has been a willful breach on the part of Grapevine or the Principal Shareholders of any of their covenants or agreements contained in the Stock Exchange Agreement, such that in both case (A) and in case (B), such breach has not been promptly cured within thirty days after notice to Grapevine or the Principal Shareholders; or (iii) by Grapevine, if (A) there has been a breach by TSA of any of its representations or warranties under the Stock

Exchange Agreement such that such representations and warranties of TSA are not true and accurate in all material respects on and as of the Closing Date or (B) there has been a willful breach on the part of TSA of any of its covenants or agreements contained in the Stock Exchange Agreement, such that in both case (A) and case (B) such breach has not been promptly cured within thirty days of notice to TSA.

ACCOUNTING TREATMENT

The Stock Exchange Agreement provides that consummation of the Share Exchange is conditioned upon the receipt by TSA of an opinion from TSA's independent auditors to the effect that the Share Exchange qualifies for accounting treatment as a "pooling of interests" if consummated in accordance with the Stock Exchange Agreement. Under the pooling-of-interests method of accounting, the historical basis of the assets and liabilities of TSA and Grapevine will be combined at Closing and carried forward at their previously recorded amounts, and the shareholders' equity accounts of Grapevine will be combined on TSA's consolidated balance sheet. Consolidated statements of operations and other financial statements of TSA issued after consummation of the Share Exchange will be restated retroactively to reflect the consolidated operations of TSA and Grapevine as if the Share Exchange had taken place prior to the periods covered by such consolidated financial statements.

For the Share Exchange to qualify as a pooling of interests for accounting purposes, substantially all (90 percent or more) of the outstanding Grapevine Class A Common Stock must be exchanged for TSA Class A Common Stock. If the holders of more than approximately 10 percent of Grapevine Class A Common Stock should assert their dissenters' rights, the Share Exchange would not qualify as a pooling of interests for accounting purposes. See "The Special Meeting - Dissenters' Rights." The Stock Exchange Agreement provides that as a condition to consummation of the Share Exchange the number of dissenting shares of the Plan of Share Exchange shall not exceed 10 percent of the outstanding shares of Grapevine's Class A Common Stock.

CERTAIN FEDERAL INCOME TAX CONSEQUENCES

The following discussion summarizes certain of the intended U.S. Federal income tax consequences of the Share Exchange. This summary is based upon the Code, Treasury Regulations, judicial authority and administrative rulings and pronouncements of the Internal Revenue Service now in effect, all of which are subject to change at any time, possibly on a retroactive basis. This discussion does not address all aspects of Federal income taxation

that may be relevant to particular shareholders and other parties to the Share Exchange and may not be applicable to shareholders who are not citizens or residents of the United States, nor does the discussion address the effect of any applicable foreign, state, local or other tax laws. EACH SHAREHOLDER SHOULD CONSULT HIS OR HER OWN TAX ADVISOR AS TO THE PARTICULAR TAX CONSEQUENCES TO HIM OR HER OF THE SHARE EXCHANGE, INCLUDING THE APPLICABILITY AND EFFECT OF FOREIGN, STATE, LOCAL AND OTHER TAX LAWS.

The Stock Exchange Agreement provides that the parties intend to adopt the agreement as a tax-free plan of reorganization and to consummate the Share Exchange in accordance with the provisions of Section 368(a)(1)(B) of the Code. TSA, Grapevine and the Principal Shareholders have each agreed not to, either before or after the Share Exchange, take any action that would prevent the Share Exchange from qualifying as a reorganization under Section 368(a)(1)(B) of the Code. No ruling will be requested from the Internal Revenue Service as to the Federal income tax consequences of the Share Exchange, and no opinion of counsel or of an accountant will be obtained.

If the Share Exchange qualifies as a reorganization within the meaning of Section 368(a) of the Code, it will have the following Federal income tax consequences for the shareholders of Grapevine, Grapevine and TSA:

1. No gain or loss will be recognized by shareholders of Grapevine as a result of the exchange of their shares of Grapevine Class A Common Stock or Grapevine Class B Common Stock solely for TSA Class A Common Stock pursuant to the Share Exchange.
2. The tax basis of the shares of TSA Class A Common Stock received by each Grapevine shareholder for Grapevine Class A Common Stock or Grapevine Class B Common Stock will equal the tax basis of such shareholder's Grapevine Class A Common Stock or Grapevine Class B Common Stock exchanged for such TSA Class A Common Stock pursuant to the Share Exchange (less any tax basis allocated to a fractional share).
3. The holding period of the shares of TSA Class A Common Stock received by each shareholder of Grapevine for Grapevine Class A Common Stock or Grapevine Class B Common Stock will include the holding period of such shareholder's Grapevine Class A Common Stock or Grapevine Class B Common Stock exchanged for such TSA Class A Common Stock pursuant to the Share Exchange.
4. Cash received by a shareholder of Grapevine in lieu of a fractional share of TSA Class A Common Stock will be treated as having been received in exchange for such fractional share of TSA Class A Common Stock. Accordingly, such shareholder will recognize gain or loss equal to the cash amount received

for the fractional share of TSA Class A Common Stock reduced by the shareholder's basis in such fractional share. Any such gain or loss recognized would be treated as capital gain or loss and would generally be long-term capital gain or loss if the fractional share of TSA Class A Common Stock were treated as having been held for more than one year.

5. Neither TSA nor Grapevine will recognize gain or loss as a result of the Share Exchange.

RESALE RESTRICTIONS

DESCRIPTION OF BUSINESS

OVERVIEW

Grapevine Systems, Inc. (Grapevine or the Company) was formed December 1, 1986. Grapevine's fiscal year ends on December 31.

Grapevine develops, markets and supports a broad line of software products and services primarily focused on high availability (HA) and on-line transaction processing (OLTP) systems worldwide. Solutions from Grapevine typically combine both professional services and product software components and have been successfully provided to some of the largest corporations in the world.

Grapevine's software products include ENGUARD-Registered Trademark-, a system monitoring and alert notification package, and the Resolve-TM- family of products which focus on streamlining software development and simplifying system performance measurement.

HA/OLTP MARKET

The HA/OLTP market continues to expand at a rapid rate as more end-users demand real-time information. The demand for Grapevine's products in both the domestic and international markets is expected to grow substantially due to technological advances, increasing consumer demand and the automation of systems in the international market.

PROFESSIONAL SERVICES

During fiscal years 1993, 1994 and 1995 and the six months ended June 30, 1996, Grapevine generated professional services revenue of \$3,054,000, \$3,405,000, \$4,288,000 and \$2,526,000, respectively, or 91%, 89%, 89% and 85%, respectively, of total gross revenues. Grapevine offers four types of services: technical services, architectural review, performance analysis and relational database.

TECHNICAL SERVICES: Technical services cover a variety of tasks including application design, development, project management and consulting services.

ARCHITECTURAL REVIEW/CAPACITY PLANNING: This service provides a comprehensive review of analyzed data and maps out a plan to ensure that future systems needs are met.

PERFORMANCE ANALYSIS: The focus of this analysis is tailored to specific requirements and covers areas including current and future business issues, current hardware/software designs, potential problems, possible bottlenecks, and current operational procedures and recommendations.

RELATIONAL DATABASE: By optimizing relational database design and application software, this service takes full advantage of flexible technology.

SOFTWARE PRODUCTS

Grapevine develops, markets and supports two products: Resolve, a Stratus-Registered Trademark--based set of utility software (InterConnect, MaxPro, and HPL), and ENGUARD. During fiscal years 1993, 1994 and 1995 and the six months ended June 30, 1996, Grapevine generated product license and maintenance fees of \$297,000, \$405,000, \$517,000 and \$433,000, respectively, or 9%, 11%, 11% and 15%, respectively, of total gross revenues.

INTERCONNECT: A comprehensive software platform developed specifically for the Stratus VOS environment. InterConnect has been designed to focus the talents of a development staff, while decreasing the effort required to implement any software application.

MAXPRO: A complete performance product available for Stratus VOS systems. MAX Pro provides everything from Stratus data collection to a real-time, graphical display for Windows-Registered Trademark- in a single package.

HPL: (High Performance Labs) Is a cost effective way of providing System Performance Reviews for Stratus VOS systems. These reviews can be done monthly, quarterly, semi-annually or annually. They eliminate the burden of gathering performance statistics, mapping trends, and identifying potential problem areas.

ENGUARD: ENGUARD is a non-intrusive monitoring system that alerts operations and management personnel of hardware, system, and application warnings, errors, and process state conditions that can lead to costly system outages.

CUSTOMERS

As of June 30, 1996, Grapevine has 47 customers. Grapevine's typical customers are large institutions in the banking, manufacturing, health care, gaming, on-line services, and brokerage industries. Some of Grapevine's largest customers included America Online (36.46% of gross revenues), American Airlines, Andersen Windows, Chicago Board Options Exchange, Applied Communications, Inc. (a subsidiary of TSA) (13.28% of gross revenues), Stratus Computer (10.46% of gross revenues), and Blue Cross of Massachusetts.

SALES AND MARKETING

Grapevine's primary method of distribution is direct sales by employees assigned to specific geographical areas. In addition, Grapevine uses distributors to supplement its direct sales force with certain software products in international and domestic markets.

RESEARCH AND DEVELOPMENT

Grapevine's product development efforts focus on new products and improved versions of existing products. Grapevine is currently directing development efforts towards further enhancing the functionality, reliability, performance and flexibility of existing products. During fiscal years 1993, 1994 and 1995 and the six months ended June 30, 1996, Grapevine's capitalized software development costs were \$356,000, \$358,000, \$386,000 and \$109,000, respectively.

BACKLOG

As of June 30, 1996, Grapevine had non-recurring revenue backlog of \$2.0 million in services. Grapevine includes in its non-recurring revenue backlog all fees specified in contracts which have been executed by Grapevine to the extent that Grapevine contemplates recognition of the related revenue within one year. There can be no assurance that the contracts included in the non-recurring revenue backlog will actually generate the specified revenues or that the actual revenues will be generated within the one year period.

COMPETITION

The HA/OLTP market is highly competitive. There is no single significant competitor in the Stratus professional services market with the exception of Stratus' own professional services division. Grapevine's most significant competition is the clients' desire to use in-house resources to address their system development needs.

PROPRIETARY RIGHTS AND LICENSES

Grapevine relies on a combination of trade secret and license agreements, nondisclosures and other contractual provisions and technical measures to protect its proprietary rights. Grapevine distributes its software products under software license agreements which typically grant customers non exclusive licenses to use the products. Use of the software products is usually restricted to designated computers at specified locations and is subject to terms and conditions prohibiting unauthorized reproduction or transfer of the software products.

Despite these precautions, there can be no assurance that misappropriation of Grapevine's software product and technology will not occur.

EMPLOYEES

As of June 30, 1996, Grapevine had a total of 57 employees, of whom 6 were engaged in administration, 9 in sales and marketing, 36 in system operations and 6 in product development and customer

support. Grapevine's success is dependent upon its ability to attract and retain qualified employees. None of Grapevine's employees are subject to a collective bargaining agreement. Grapevine management believes that its relations with its employees are good.

DISAGREEMENTS WITH AUDITORS

There have been no changes in or disagreements with accountants on accounting and financial disclosure.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

REVENUE RECOGNITION AND PRICING

Grapevine's typical service engagement is under a time and materials contract. Contracted hourly services are invoiced monthly. Services revenue is recognized as the services are performed. Grapevine has certain long-term contracts in which revenues are recognized using the percentage of completion method of accounting. Under this method, the percentage of completion is computed by relating the actual cost to date to the current estimated total cost.

Grapevine typically charges a one-time license fee for the non-exclusive use of its software products. This fee allows the licensee to use the licensed software on specified equipment on a perpetual basis. A limited trial period is included prior to execution of a binding contract which eliminates potential returns and credits. Consequently, license fee revenue is recognized upon execution of a binding contract and delivery and activation of the software with no allowance for returns.

After a 30 - 90 day warranty period, the licensee is charged an annual maintenance fee which is typically a percentage of the one-time license fee. Maintenance revenue is recognized ratably over the contract term commencing with customer acceptance of the maintenance agreement.

Grapevine currently has an agreement for the relicensing of its software products with Stratus Computers, Inc. The agreement is non-exclusive. License fee revenue is recognized gross of any distribution fees and hardware costs for those licenses sold under this distribution agreement.

REVENUES:

Grapevine's overall revenue growth rate was 13.7%, 26.1% and 37.8% for fiscal years 1994 and 1995 and the six months ended June 30, 1996, respectively.

Professional service fee revenue increased 11.5%, 26.0% and 29.2% for fiscal years 1994 and 1995 and the six months ended June 30, 1996, respectively. These increases are primarily attributable to continued increases in demand for Grapevine's services as a result of increased demand in HA/OLTP processing and Grapevine as a solutions provider.

Product license fee revenue increased 73.7%, 28.4% and 111.8% for fiscal years 1994 and 1995 and the six months ended June 30, 1996, respectively. These increases are a result of the rollout of the Enguard product in late 1994 and the signing of a distribution agreement with Stratus in 1995. There was a transition period involved in the distribution agreement which resulted in lower percentage growth during 1995. In late 1995, the distribution agreement was amended to remove an exclusivity clause. This, coupled with a natural maturation of the distribution agreement, resulted in a higher growth rate in product licenses and more direct sales during the six months ended June 30, 1996.

Maintenance fees decreased 45.9% for fiscal year 1994 and increased 28.3% and 193.8% for fiscal year 1995 and the six months ended June 30, 1996, respectively. The decrease in 1994 was due in large part to the cancellation of two long-term third party product maintenance agreements. The 1995 and 1996 increase was due to an overall increase in the installed base of Grapevine's products.

EXPENSES

Grapevine's total operating expenses increased 19.3%, 28.8% and 37.2% for fiscal years 1994 and 1995 and the six months ended June 30, 1996, respectively.

Cost of revenues as a percentage of gross revenue was 42.0%, 41.6% and 52.9% for fiscal years 1993, 1994 and 1995, respectively. The increase in 1995 is primarily attributable to a higher usage of contractors to staff several long-term engagements and engagements which required extensive travel. This allowed Grapevine to staff these projects quickly without hiring to peaks in demand. This increase is also a result of distribution fees associated with the Stratus distribution agreement. During the six months ended June 30, 1996, cost of revenues were 49.7% of gross revenues compared to 53.4% for the comparable period of 1995. The decrease is due to a more gradual hiring process to staff projects as well as lower distributor commission costs.

Research and development technical staff cost as a percentage of gross revenue was 8.7%, 10.9%, and 9.0% for fiscal years ended 1993, 1994 and 1995, respectively. The increase in 1994 is due to development costs associated with the Enguard product. For the six months ended June 30, 1996, research and development technical staff costs as a percentage of gross revenue were 11.3% compared to 8.0% for the comparable period of 1995. This increase is due to an increase in staff levels and associated training costs.

Selling and marketing costs as a percentage of gross revenues were 24.5%, 25.4%, and 21.3% for fiscal years 1993, 1994, and 1995, respectively. The 1994 increase was due to additional staffing requirements necessary to support the increase in revenues and Grapevine's efforts to market its products. The decrease in 1995 is due to the use of Stratus as a distribution agent in lieu of direct sales. For the six months ended June 30, 1996, selling and marketing costs as a percentage of gross revenues were 23.6% as compared to 21.6% for the comparable period of 1995. The increase is a result of a focus on internal product sales and less reliance on distributors as well as the creation of an internal marketing department.

General and administrative (G&A) costs as a percentage of gross revenues were 16.9%, 18.7%, and 15.4% for fiscal years 1993, 1994 and 1995, respectively. The 1994 increase was a result of increased staffing requirements, increased depreciation expense related to computer equipment purchases and increased rent expense resulting from additional office space. The 1995 decrease is due to an emphasis on administrative cost controls and an increase in gross revenues. For the six months ended June 30, 1996, G&A costs were 15.0% as compared to 16.9% for the comparable period of 1995. This decline is due to the Company's continued emphasis on administrative costs controls and an increase in gross revenues.

INCOME TAXES

The effective tax rate for the years ended December 31, 1993, 1994 and 1995 and the six months ended June 30, 1996 was 39.6%, 41.8%, 41.8% and 41.8%, respectively.

As of June 30, 1996, the Company has deferred tax assets of \$412,000 and deferred tax liabilities of \$719,000. Each quarter, the Company evaluates its historical operating results as well as its projections for the next 24 months to determine the realizability of the deferred tax assets. This analysis indicated that \$383,000 of the deferred tax assets were more likely than not to be realized. Accordingly, the Company has recorded a valuation reserve of \$29,000 as of June 30, 1996.

LIQUIDITY AND CAPITAL REQUIREMENTS

At June 30, 1996, Grapevine had negative working capital of \$155,680, cash and cash equivalents of \$2,144, a \$500,000 revolving line-of-credit of which \$360,000 was outstanding and \$200,000 note payable due August 12, 1996. The bank line-of-credit expires August 15, 1996. In connection with the line of credit, Grapevine has agreed to certain covenants which, among other things, require total stockholders' equity to remain above \$250,000, minimum debt to net worth, and current ratio requirements. As of June 30, 1996, Grapevine was in violation of several covenants, all of which have been waived by the bank. During the six months ended June 30, 1996, Grapevine has renewed the term note payable as it has come due for amounts ranging from \$50,000 to \$200,000.

For the years ended December 31, 1993, 1994, and 1995, the Company had cash flows from operations of \$353,230, \$454,491, and \$395,533, respectively. Cash used in investing activities for these same periods was \$424,549, \$441,938, and \$412,701, respectively, of which \$355,986, \$357,513 and \$385,808 consisted of product development costs, respectively. For the six months ended June 30, 1996, the Company had negative cash flow from operations in the amount of \$38,424. Cash used in investing activities for this same period was \$153,480 of which \$109,424 consisted of product development costs.

In the event that the share exchange contemplated in this document is not consummated, management believes that it has the capability to refinance the \$200,000 note due on August 12, 1996 and to renew the line of credit which expires August 15, 1996. Both of these debt instruments are with the same financial institution and the Company has had preliminary discussions regarding such refinancing and renewal. Management believes that these factors together with cash flow generated from operations, are sufficient to meet its working capital requirements for the foreseeable future.

For business to be properly requested to be brought before an annual meeting by a stockholder, the stockholder must deliver or mail written notice thereof in writing to the Secretary of the Company, and such written notice must be received at the principal executive offices of the Company not less than eighty days prior to the meeting; provided, however, that in the event that the date of the meeting is not publicly announced by the Company by mail, press release or otherwise more than ninety days prior to the meeting, notice by the stockholder must be delivered

to the Secretary of the Company not later than the close of business on the tenth day following the day on which such announcement of the date of the meeting was communicated to stockholders. The chairman of an annual meeting will, if the facts warrant, determine and declare to the meeting that business was not properly brought before the meeting and, if he should so determine, declare to the meeting that such business not properly brought before the meeting shall not be transacted.

Grapevine. The Grapevine Bylaws provide that written or printed notice stating the place, day and hour of a shareholders meeting, and in the case of a special meeting, the purpose or purposes of which the meeting is called, must be delivered not less than ten, nor more than fifty, days before the date of the meeting, either personally or by mail, to each shareholder of record entitled to vote at such meeting. The NBCA provides that, unless the NBCA or the articles of incorporation require otherwise, notice of an annual meeting shall not be required to include a description of the purpose or the purposes for which the meeting is called. The Grapevine Charter does not contain any requirements regarding notice of the business to be conducted at an annual meeting of shareholders.

INDEMNIFICATION

TSA. The DGCL permits indemnification by a corporation of certain officers, directors, employees and agents. Consistent therewith, the TSA Charter provides that TSA, to the fullest extent authorized by the DGCL, as the same exists or may hereafter be amended (but, in the case of any such amendment, only to the extent that such amendment permits the Company to provide broader indemnification rights than such law permitted the Company to provide prior to such amendment), shall indemnify a director or officer of the Company or a person who is or was serving at the request of the Company as director, officer, employee or agent of another corporation or of a partnership, joint venture, trust or other enterprise, including service with respect to an employee benefit plan, who was or is made (or threatened to be made) a party to a civil, criminal, administrative or investigative proceeding (an "indemnified person"). The TSA Charter also provides that expenses incurred by an indemnified person will be paid in advance by the Company; provided, however, that, if the DGCL requires, an advancement of expenses incurred by an indemnified person incurred in his or her capacity as a director or officer shall be made only if the Company receives an undertaking by or on behalf of the indemnified person to repay all amounts so advanced if it shall ultimately be determined by final judicial decision from which there is no further right to appeal that such indemnified person is not entitled to be indemnified for such expenses.

Grapevine. The NBCA permits, and in certain circumstances requires, indemnification by a corporation of certain officers and directors, and advancement of expenses under certain conditions in connection therewith. The Grapevine Charter and the Grapevine Bylaws do not contain any provision which obligates Grapevine to indemnify its officers or directors, or to advancement expenses in connection therewith.

INSURANCE

TSA. The TSA Bylaws provide that the Company must purchase and maintain insurance on behalf of any person who is or was or has agreed to become a director, officer, employee or agent of the Company, or is or was serving at the request of the Company as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, against any liability asserted against him and incurred by him or on his behalf in any such capacity or arising out of his status as such, whether or not the Company would have the power to indemnify him against such liability under the provisions of the TSA Bylaws, provided that such insurance is available on acceptable terms as determined by a vote of a majority of the entire Board of Directors. Furthermore, the TSA Charter provides that the Company may maintain insurance, at its expense, to protect itself and any director, officer, employee or agent of the Company or another corporation, partnership, joint venture, trust or other enterprise against any expense, liability or loss, whether or not the Company would have the power to indemnify such person against such expense, liability or loss under the DGCL.

Grapevine. Neither the Grapevine Charter nor the Grapevine Bylaws contain any provision regarding the purchase or maintenance of insurance by Grapevine on behalf of any person. The NBCA provides that a corporation may purchase and maintain insurance on behalf of an individual who is a director or officer of the corporation, or who, while a director or officer of the corporation, serves at the corporation's request as a director, officer, member of a limited liability company, partner, trustee, employee, or agent of another domestic or foreign corporation, limited liability company, partnership, joint venture, trust, employee benefit plan, or other entity, against liability asserted against or incurred by him or her in that capacity or arising from his or her status as a director or officer whether or not the corporation would have power to indemnify or advance expenses to him or her against the same liability under the NBCA.

LIMITATION OF LIABILITY

TSA. The TSA Charter provides that a director of the Company will not be personally liable to the Company or its stockholders

for monetary damages for breach of fiduciary duty as a director, except liability for (i) any breach of the director's duty of loyalty to the Company of its stockholders, (ii) acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of the law, (iii) the unlawful payment of a dividend or unlawful stock purchase or redemption or (iv) any transaction from which the director derived an improper personal benefit. Delaware law does not permit a corporation to eliminate a director's duty of care, and this provision of the TSA Charter has no effect on the availability of equitable remedies, such as injunction or rescission, based upon a director's breach of the duty of care. The TSA Charter further provides that if the DGCL is amended to authorize corporate action further eliminating or limiting the personal liability of the directors, then the liability of a director of the Company shall be eliminated or limited to the fullest extent permitted by the DGCL, as so amended.

Grapevine. The Grapevine Charter and Grapevine Bylaws do not contain any provisions eliminating or limiting the liability of a director to Grapevine or its shareholders.

RESTRICTIONS ON BUSINESS COMBINATIONS

TSA. The TSA Charter provides that the Company shall be subject to Section 203 of the DGCL ("Section 203"), and any successor provision thereto. Under Section 203, certain "business combinations" between a Delaware corporation whose stock generally is publicly traded or held of record by more than 2,000 stockholders and an "interested stockholder" are prohibited for a three-year period following the date that such stockholder became an interested stockholder, unless (i) the corporation has elected in its original certificate of incorporation not to be governed by Section 203 (the Company did not make such an election), (ii) the business combination was approved by the board of directors of the corporation before the other party to the business combination became an interested stockholder, (iii) upon consummation of the transaction that made it an interested stockholder, the interested stockholder owned at least 85% of the voting stock of the corporation outstanding at the commencement of the transaction (excluding voting stock owned by directors who are also officers or held in employee benefit plans in which the employees do not have a confidential right to tender or vote stock held by the plan) or (iv) the business combination was approved by the board of directors of the corporation and ratified by two-thirds of the voting stock which the interested stockholder did not own. The three-year prohibition also does not apply to certain business combinations proposed by an interested stockholder following the announcement or notification of certain extraordinary transactions involving the corporation and a person who had not been an interested stockholder during the previous three years or who became an interested stockholder with the approval of the majority

of the corporation's directors. The term "business combination" is defined generally to include mergers or consolidations between a Delaware corporation and an "interested stockholder," transactions with an "interested stockholder" involving the assets or stock of the corporation or its majority-owned subsidiaries and transactions which increase an interested stockholder's percentage ownership of stock. The term "interested stockholder" is defined generally as a stockholder who, together with affiliates and associates, owns (or, within three years prior, did own) 15% or more of a Delaware corporation's voting stock.

Grapevine. Under the Nebraska Shareholders Protection Act, certain "business combinations" between certain Nebraska corporations which have one hundred or more shareholders and an "interested shareholder" are prohibited for a five-year period after the interested shareholders' acquisition of shares, unless the business combination or the acquisition of shares made by the interested shareholder is approved by the Nebraska corporation's board of directors prior to the date of the interested shareholder's acquisition of shares. The Nebraska Shareholders Protection Act, however, does not apply to a corporation, like Grapevine, which does not have a class of voting stock that is listed on a national securities exchange or is authorized for quotation on an interdealer quotation system of a registered national securities association, or which has fewer than one hundred shareholders.

SHAREHOLDER VOTE FOR MERGERS, SHARE EXCHANGES AND SALE OF ASSETS

TSA. The DGCL generally requires the affirmative vote of a majority of the outstanding stock of each constituent corporation entitled to vote thereon in a merger (except with respect to certain mergers between parent and subsidiary corporations) or consolidation. With respect to the sale, lease or exchange of all or substantially all of a corporation's property and assets, the DGCL generally requires the affirmative vote of the holders of a majority of the outstanding stock. The DGCL does not address statutory share exchanges.

Grapevine. The NBCA generally requires the approval of a two-thirds majority of all the votes entitled to be cast by each voting group entitled to vote separately of each corporation party to a merger and the corporation whose shares will be acquired in a share exchange. With respect to the sale, lease or exchange of all or substantially all of a corporation's property otherwise than in the usual and regular course of business, the NBCA generally requires the approval by a two-thirds majority of all the votes entitled to be cast on the transaction.

APPRAISAL OR DISSENTERS' RIGHTS

TSA. The DGCL provides that appraisal rights are generally not available for shares of stock which, at the record date fixed to determine the stockholders entitled to receive notice of and to vote at the meeting of stockholders to act upon an agreement of merger or consolidation, are (i) listed on a national securities exchange or designated as a national market system security on an interdealer quotation system by the National Association of Securities Dealers, Inc. or (ii) held of record by more than 2,000 holders. TSA's Class A Common Stock is subject to quotation on the Nasdaq National Market.

Grapevine. The NBCA provides that shareholders have dissenters' rights, under certain circumstances, in the event of a merger or share exchange. See "The Special Meeting - Dissenters' Rights."

PREFERRED STOCK

TSA. The TSA Board of Directors has the authority, without any further vote or action by the stockholders, to provide for the issuance of up to 5,450,000 shares of preferred stock from time to time in one or more series with such designations, rights, preferences and limitations as the Board of Directors may determine. See "Description of Capital Stock - Preferred Stock" in accompanying Prospectus. TSA does not have any preferred stock currently outstanding. However, the rights, preferences and privileges of holders of Class A Common Stock and Class B Common Stock are subject to, and may be adversely affected by, the rights of the holders of shares of any series of preferred stock which the Company may designate and issue in the future.

Grapevine. The Grapevine Charter does not authorize Grapevine to issue preferred stock.

NOTES TO FINANCIAL STATEMENTS

A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

NATURE OF OPERATIONS - Grapevine Systems, Inc. (the Company) is an Omaha, Nebraska, based professional software company that provides development services, product software, and consulting services for projects, large and small, to companies primarily in the United States who are engaged in a wide variety of industries. The Company specializes in providing programming services on Stratus hardware. Grapevine Systems, Inc. has developed special concentrations in the areas of application development, communication and performance analysis.

BASIS OF PRESENTATION OF UNAUDITED INTERIM FINANCIAL STATEMENTS - The balance sheet as of June 30, 1996 and the related statements of operations and cash flows for the six months ended June 30, 1995 and 1996, are unaudited. However, in the opinion of management, the interim financial statements include all adjustments, which consist of only normal recurring adjustments, necessary for fair presentation of the Company's financial position and results of operations. The unaudited results of operations for the six months ended June 30, 1996, are not necessarily indicative of the results which may be expected for the entire year.

REVENUE RECOGNITION - The Company recognizes revenues upon the delivery of its products and services for the majority of its contracts. The Company has certain long-term contracts in which revenues are recognized using the percentage of completion method of accounting. Under this method, the percentage of completion is determined by relating the actual cost to date to the current estimated total cost. The asset, "costs and estimated earnings in excess of billings on uncompleted contracts," represents the excess of contract revenue recognized to date over actual billings to date. The liability, "billings in excess of costs and estimated earnings on uncompleted contracts," represents the excess of billings to date over the contract revenue recognized to date.

NEW ACCOUNTING PRONOUNCEMENTS - The Company has evaluated the impact that will result from adopting SFAS No. 121, ACCOUNTING FOR IMPAIRMENT OF LONG-LIVED ASSETS AND FOR LONG-LIVED ASSETS TO BE DISPOSED OF, which will be required to be adopted in the first quarter of 1996. The Company does not expect the impact from adoption to be material to its financial statements.

PRODUCT DEVELOPMENT - Product development costs related to the Company's software products are recognized as expenses when incurred until technological feasibility has been established for the product. Thereafter, up to the general release of the products to the customer, all product development costs are capitalized. Such costs are then amortized on a straight-line basis over the remaining estimated economic life of the product, not to exceed three years. At each balance sheet date, the unamortized product development cost is analyzed for net realizable value by estimating future gross revenues by product reduced by future estimated costs of completing and disposing of that product. During the year ended December 31, 1993, 1994 and 1995 and the six months ended June 30, 1996, \$355,986, \$357,513, \$385,808 and \$109,424 (unaudited) of product development costs were capitalized, respectively. Research and development expenses incurred prior to capitalization of product costs were \$647,278, \$771,638, \$817,616, \$445,915 (unaudited) and \$443,028 (unaudited) for the years ended December 31, 1993, 1994 and 1995 and the six months ended June 30, 1995 and 1996, respectively.

PROPERTY AND EQUIPMENT - Property and equipment is stated at cost and includes the cost of equipment leased by the Company under capital leases.

Depreciation on property and equipment is provided utilizing accelerated methods over the following ranges of estimated useful lives:

	LIFE IN YEARS
Furniture and fixtures	7
Equipment	5-7
Leasehold improvements	31-1/2
Equipment under capital lease	3-7

DEFERRED REVENUE - Deferred revenue primarily relates to amounts received on maintenance contracts. Revenue is recognized ratably over the term of the contract.

INCOME TAXES - Deferred income taxes have been provided in the financial statements to record appropriate amounts relating to temporary differences for income tax return and financial statement purposes. The Company uses the cash basis of accounting for income tax purposes, and the accrual basis of accounting for financial statement purposes. The Company follows Statement of Financial Accounting Standards No. 109, ACCOUNTING FOR INCOME TAXES.

CASH FLOW REPORTING - For purposes of the statements of cash flows, the Company considers all temporary investments purchased with a maturity of three months or less to be cash equivalents.

Actual results could differ from those estimates.

@ 21-20,137. Dissenters' rights; terms, defined

For purposes of sections 21-20,137 to 21-20,150:

(1) Beneficial shareholder shall mean the person who is a beneficial owner of shares held in a voting trust or by a nominee as the record shareholder;

(2) Corporation shall mean the issuer of the shares held by a dissenter before the corporate action or the surviving or acquiring corporation by merger or share exchange of that issuer;

(3) Dissenter shall mean a shareholder who is entitled to dissent from corporate action under section 21-20,138 and who exercises that right when and in the manner required by sections 21-20,140 to 21-20,148;

(4) Fair value, with respect to a dissenter's shares, shall mean the value of the shares immediately before the effectuation of the corporate action to which the dissenter objects, excluding any appreciation or depreciation in anticipation of the corporate action unless exclusion would be inequitable;

(5) Interest shall mean interest from the effective date of the corporate action until the date of payment at the rate specified in section 45-104, as such rate may from time to time be adjusted by the Legislature;

(6) Record shareholder shall mean the person in whose name shares are registered in the records of a corporation or the beneficial shareholder to the extent of the rights granted by a nominee certificate on file with a corporation; and

(7) Shareholder shall mean the record shareholder or the beneficial shareholder.

@ 21-20,138. Right to dissent

(1) A shareholder shall be entitled to dissent from, and obtain payment of the fair value of his or her shares in the event of, any of the following corporate actions:

(a) Consummation of a plan of merger to which the corporation is a party:

(i) If shareholder approval is required for the merger by section 21-20,130 or the articles of incorporation and the shareholder is entitled to vote on the merger; or

(ii) If the corporation is a subsidiary that is merged with its parent under section 21-20,131;

(b) Consummation of a plan of share exchange to which the corporation is a party as the corporation whose shares will be acquired, if the shareholder is entitled to vote on the plan;

(c) Consummation of a sale or exchange of all, or substantially all, of the property of the corporation other than in the usual and regular course of business if the shareholder is entitled to vote on the sale or exchange, including a sale in dissolution, but not including a sale pursuant to court order or a sale for cash pursuant to a plan by which all or substantially all of the net proceeds of the sale will be distributed to the shareholders within one year after the date of sale;

(d) An amendment of the articles of incorporation that materially and adversely affects rights in respect of a dissenter's shares because it:

(i) Alters or abolishes a preferential right of the shares;

(ii) Creates, alters, or abolishes a right in respect of redemption, including a provision respecting a sinking fund for the redemption or repurchase of the shares;

(iii) Alters or abolishes a preemptive right of the holder of the shares to acquire shares or other securities;

(iv) Excludes or limits the right of the shares to vote on any matter, or to cumulate votes, other than a limitation by dilution through issuance of shares or other securities with similar voting rights; or

(v) Reduces the number of shares owned by the shareholder to a fraction of a share if the fractional share so created is to be acquired for cash under section 21-2038; or

(e) Any corporate action taken pursuant to a shareholder vote to the extent the articles of incorporation, the bylaws, or a resolution of the board of directors provides that voting or nonvoting shareholders are entitled to dissent and obtain payment for their shares.

(2) A shareholder entitled to dissent and obtain payment for his or her shares under sections 21-20,137 to 21-20,150 may not challenge the corporate action creating his or her entitlement unless the action is unlawful or fraudulent with respect to the shareholder or the corporation.

(3) The right to dissent and obtain payment under sections 21-20,137 to 21-20,150 shall not apply to the shareholders of a bank, trust company, stock-owned savings and loan association, industrial loan and investment company, or the holding company of any such bank, trust company, stock-owned savings and loan association, or industrial loan and investment company.

@ 21-20,139. Dissent by nominees and beneficial owners

(1) A record shareholder may assert dissenters' rights as to fewer than all the shares registered in his or her name only if he or she dissents with respect to all shares beneficially owned by any one person and notifies the corporation in writing of the name and address of each person on whose behalf he or she asserts dissenters' rights. The rights of a partial dissenter under this subsection shall be determined as if the shares as to which he or she dissents and his or her other shares were registered in the names of different shareholders.

(2) A beneficial shareholder may assert dissenters' rights as to shares held on his or her behalf only if:

(a) He or she submits to the corporation the record shareholder's written consent to the dissent not later than the time the beneficial shareholder asserts dissenters' rights; and

(2) If corporate action creating dissenters' rights under section 21-20,138 is taken without a vote of shareholders, the corporation shall notify in writing all shareholders entitled to assert dissenters' rights that the action was taken and send those shareholders the dissenters' notice described in section 21-20,142.

@ 21-20,141. Dissenters' rights; notice of intent to demand payment

(1) If proposed corporate action creating dissenters' rights under section 21-20,138 is submitted to a vote at a shareholders' meeting, a shareholder who wishes to assert dissenters' rights (a) shall deliver to the corporation before the vote is taken written notice of his or her intent to demand payment for his or her shares if the proposed action is effectuated and (b) shall not vote his or her shares in favor of the proposed action.

(2) A shareholder who does not satisfy the requirements of subsection (1) of this section shall not be entitled to payment for his or her shares under sections 21-20,137 to 21-20,150.

@ 21-20,142. Dissenters' notice

(1) If proposed corporate action creating dissenters' rights under section 21-20,138 is authorized at a shareholders' meeting, the corporation shall deliver a written dissenters' notice to all shareholders who satisfied the requirements of section 21-20,141.

(2) The dissenters' notice shall be sent no later than ten days after the corporate action was taken and shall:

(a) State where the payment demand shall be sent and where and when certificates for certificated shares shall be deposited;

(b) Inform holders of uncertificated shares to what extent transfer of the shares will be restricted after the payment demand is received;

(c) Supply a form for demanding payment that includes the date of the first announcement to news media or to shareholders of the terms of the proposed corporate action and requires that the person asserting dissenters' rights certify whether or not he or she acquired beneficial ownership of the shares before that date;

(d) Set a date by which the corporation shall receive the payment demand which date may not be fewer than thirty nor more than sixty days after the date the notice required by subsection (1) of this section is delivered; and

(e) Be accompanied by a copy of sections 21-20,137 to 21-20,150.

@ 21-20,143. Dissenters' rights; duty to demand payment

(1) A shareholder who was sent a dissenters' notice described in section 21-20,142 shall demand payment, certify whether he or she acquired beneficial ownership of the shares before the date required to be set forth in the dissenters' notice pursuant to subdivision (2)(c) of section 21-20,142, and deposit his or her certificates in accordance with the terms of the notice.

(2) The shareholder who demands payment and deposits his or her shares under subsection (1) of this section shall retain all other rights of a shareholder until such rights are canceled or modified by the taking of the proposed corporate action.

(3) A shareholder who does not demand payment or does not deposit his or her share certificates where required, each by the date set in the dissenters' notice, shall not be entitled to payment for his or her shares under sections 21-20,137 to 21-20,150.

@ 21-20,144. Dissenters' rights; share restrictions

(1) The corporation may restrict the transfer of uncertificated shares from the date the demand for their payment is received until the proposed corporate action is taken or the restrictions are released under section 21-20,146.

(2) The person for whom dissenters' rights are asserted as to uncertificated shares shall retain all other rights of a shareholder until such rights are canceled or modified by the taking of the proposed corporate action.

@ 21-20,145. Dissenters' rights; payment

(1) Except as provided in section 21-20,147, as soon as the proposed corporate action is taken, or upon receipt of a payment demand, the corporation shall pay each dissenter who complied with section 21-20,143 the amount the corporation estimates to be the fair value of his or her shares, plus accrued interest.

(2) The payment shall be accompanied by:

(a) The corporation's balance sheet as of the end of a fiscal year ending not more than sixteen months before the date of payment, an income statement for that year, a statement of changes in shareholders' equity for that year, and the latest available interim financial statements, if any;

(b) A statement of the corporation's estimate of the fair value of the shares;

(c) An explanation of how the interest was calculated;

(d) A statement of the dissenter's right to demand payment under section 21-20,148; and

(e) A copy of section 21-20,137 to 21-20,150.

@ 21-20,146. Dissenters' rights; failure to take action

(1) If the corporation does not take the proposed action within sixty days after the date set for demanding payment and depositing share certificates, the corporation shall return the deposited certificates and release the transfer restrictions imposed on uncertificated shares.

(2) If, after returning deposited certificates and releasing transfer restriction, the corporation takes the proposed action, it shall send a new dissenter's notice under section 21-20,142 and repeat the payment demand procedure.

@ 21-20,147. Dissenters' rights; after-acquired shares

(1) A corporation may elect to withhold payment required by section 21-20,145 from a dissenter unless he or she was the beneficial shareholder before the date set forth in the dissenters' notice as the date of the first announcement to news media or to shareholders of the terms of the proposed corporate action.

(2) To the extent the corporation elects to withhold payment under subsection (1) of this section after taking the proposed corporate action, it shall estimate the fair value of the shares, plus accrued interest, and shall pay this amount to each dissenter who agrees to accept it in full satisfaction of his or her demand. The corporation shall send with its offer a statement of its estimate of the fair value of the shares, an explanation of how the interest was calculated, and a statement of the dissenter's right to demand payment under section 21-20,148.

@ 21-20,148. Dissenters' rights; procedure if shareholder dissatisfied with payment or offer

(1) A dissenter may notify the corporation in writing of his or her own estimate of the fair value of his or her shares and amount of interest due, and demand payment of his or her estimate, less any payment under section 21-20,145, or reject the corporation's offer under section 21-20,147 and demand payment of the fair value of his or her shares and interest due if:

(a) The dissenter believes that the amount paid under section 21-20,145 or offered under section 21-20,147 is less than the fair value of his or her shares or that the interest due is incorrectly calculated;

(b) The corporation fails to make payment under section 21-20,145 within sixty days after the date set for demanding payment; or

(c) The corporation, having failed to take the proposed action, does not return the deposited certificates or release the transfer restrictions imposed on uncertificated shares within sixty days after the date set for demanding payment.

(2) A dissenter waives his or her right to demand payment under this section unless he or she notifies the corporation of his or her demand in writing under subsection (1) of this section within thirty days after the corporation made or offered payment for his or her shares.

@ 21-20,149. Dissenters' rights; court action

(1) If a demand for payment under section 21-20,148 remains unsettled, the corporation shall commence a proceeding within sixty days after receiving the payment demand and petition the court to determine the fair value of the shares and accrued interest. If the corporation does not commence the proceeding within the sixty-day period, it shall pay each dissenter whose demand remains unsettled the amount demanded.

(2) The corporation shall commence the proceeding in the district court of the county where a corporation's principal office, or, if none in this state, its registered office, is located. If the corporation is a foreign corporation without a registered office in this state, it shall commence the proceeding in the district court of the county in this state where the registered office of the domestic corporation merged with or whose shares were acquired by the foreign corporation was located.

(3) The corporation shall make all dissenters, whether or not residents of this state, whose demands remain unsettled, parties to the proceeding as in an action against their shares and all parties shall be served with a copy of the petition. Nonresidents may be served by registered or certified mail or by publication as provided by law.

(4) The jurisdiction of the court in which the proceeding is commenced under subsection (2) of this section shall be plenary and exclusive. The court may appoint one or more persons as appraisers to receive evidence and recommend decision on the question of fair value. Appraisers shall have the powers described in the order appointing them or in any amendment to such order. The dissenters shall be entitled to the same discovery rights as parties in other civil proceedings.

(5) Each dissenter made a party to the proceeding shall be entitled to judgment (a) for the amount, if any, by which the court finds the fair value of his or her shares, plus interest, exceeds the amount paid by the corporation or (b) for the fair value, plus accrued interest, of his or her after-acquired shares for which the corporation elected to withhold payment under section 21-20,147.

@ 21-20,150. Dissenters' rights; court costs and attorney's fees

(1) The court in an appraisal proceeding commenced under section 21-20,149 shall determine all costs of the proceeding, including the reasonable compensation and expenses of appraisers appointed by the court. The court shall assess the costs against the corporation, except that the court may assess costs against all or some of the dissenters, in amounts the court finds equitable, to the extent the court finds the dissenters acted arbitrarily, vexatiously, or not in good faith in demanding payment under section 21-20,148.

(2) The court may also assess the attorney's fees and expenses and the fees and expenses of experts for the respective parties in amounts the court finds equitable:

(a) Against the corporation and in favor of any or all dissenters if the court finds the corporation did not substantially comply with the requirements of sections 21-20,140 to 21-20,148; or

(b) Against either the corporation or a dissenter, in favor of any other party, if the court finds that the party against whom the fees and expenses are assessed acted arbitrarily, vexatiously, or not in good faith with respect to the rights provided by sections 21-20,137 to 21-20,150.

(3) If the court finds that the services of counsel for any dissenter were of substantial benefit to other dissenters similarly situated and that the fees for those services should not be assessed against the corporation, the court may award to counsel reasonable fees to be paid out of the amounts awarded to the dissenters who were benefited.

A. TSA, the Principal Shareholders and Grapevine have determined to engage in the transactions contemplated hereby, pursuant to which Grapevine will adopt a Plan of Share Exchange in accordance with Section 21-20,129 of the Nebraska Business Corporation Act and its shareholders will exchange (the "Exchange") all of their shares of Grapevine Common Stock, par value \$.004 per share ("Grapevine Common Stock"), for shares of TSA's Class A Common Stock, par value \$.005 per share ("TSA Common Stock"), upon the terms and subject to the conditions set forth herein.

B. The Principal Shareholders of Grapevine are hereby making certain representations, warranties, covenants and agreements in support of the transactions contemplated by this Agreement.

C. The Exchange is intended to be treated as a "pooling of interests" for accounting purposes and a tax-free reorganization pursuant to the provisions of Section 368(a)(1)(B) of the Internal Revenue Code of 1986, as amended.

NOW, THEREFORE, in consideration of the foregoing and the mutual representations, warranties, covenants and agreements set forth herein, the parties agree as follows:

ARTICLE I

THE EXCHANGE

SECTION 1.01 THE EXCHANGE.

(a) Subject to the terms and conditions of this Agreement, on the Closing Date (as defined in subsection (b) below), the Grapevine shareholders will exchange, assign, transfer and deliver all of the shares of Grapevine Common Stock for shares of TSA Common Stock

and TSA agrees to exchange therefor and assign, transfer and deliver that number of shares of TSA Common Stock as calculated in accordance with the provisions of this Agreement.

(b) The closing of the Exchange (the "Closing") will take place as soon as practicable after the parties hereto are in a position to satisfy or waive the conditions set forth in Article VII. The Closing shall take place at a date and time to be mutually agreed upon by the parties but not later than twenty (20) business days after the Registration Statement is declared effective by the Securities and Exchange Commission (the "Closing Date") at the offices of Erickson & Sederstrom, P.C., Omaha, Nebraska 68114.

(c) On the Closing Date, TSA shall deliver for exchange in accordance with this Section 1.01 certificates evidencing TSA Common Stock in exchange for outstanding shares of Grapevine Common Stock.

(d) Notwithstanding any other provision of this Agreement, no fractional shares of TSA Common Stock shall be issued in connection with the Exchange. In lieu of any such fractional shares, each holder of shares of Grapevine Common Stock who would otherwise have been entitled to receive a fraction of a share of TSA Common Stock upon surrender of Certificates for exchange pursuant to this Section 1.01 shall be entitled to receive from TSA a cash payment equal to such fraction multiplied by the Average Closing Price of TSA Common Stock.

SECTION 1.02 EXCHANGE FACTORS.

(a) On the Closing Date each share of Class A Grapevine Common Stock outstanding immediately prior to the Closing Date shall be exchanged for .2074 of a share of TSA Common Stock.

(b) On the Closing Date each share of fully vested Class B Grapevine Common Stock outstanding immediately prior to the Closing Date, as set forth on Exhibit 2.29, shall be exchanged for .1971 of a share of TSA Common Stock.

(c) On the Closing Date each share of twenty-five percent (25%) vested Class B Grapevine Common Stock outstanding immediately prior to the Closing Date, as set forth on Exhibit 2.29, shall be exchanged for .1675 of a share of TSA Common Stock.

(d) On the Closing Date each share of fifty percent (50%) vested Class B Grapevine Common Stock outstanding immediately prior to the Closing Date, as set forth on Exhibit 2.29, shall be exchanged for .1774 of a share of TSA Common Stock.

(e) On the Closing Date each share of seventy-five percent (75%) vested Class B Grapevine Common Stock outstanding immediately prior to the Closing Date, as set forth on Exhibit 2.29, shall be exchanged for .1872 of a share of TSA Common Stock.

The total number of shares of TSA Common Stock to be issued in the Exchange (i.e., 370,000) and the exchange ratios set forth in paragraph 1.02(a) through 1.02(e) will be adjusted in the event that the average per share closing price of TSA Common Stock on NASDAQ for the five (5) business days after the Registration Statement (described in Section 2.28) is declared effective by the Securities and Exchange Commission ("Average Closing Price") is less than Thirty Dollars (\$30.00) per share or more than Forty Dollars (\$40.00) per share. If the Average Closing Price is less than Thirty Dollars (\$30.00) per share, then the total number of shares of TSA Common Stock to be issued in the Exchange shall be determined by dividing \$11,100,000 (which is 370,000 x \$30.00) by the Average Closing Price. If the Average Closing Price is greater than Forty Dollars (\$40.00), then the total number of shares of TSA to be issued in the Exchange shall be determined by dividing \$14,800,000 (which is 370,000 x \$40.00) by the Average Closing Price. In the case of either such adjustment, the exchange ratios set forth in paragraphs 1.02(a) through 1.02(e) shall be adjusted accordingly.

SECTION 1.03 EFFECT OF SHARE EXCHANGE UNDER NEBRASKA BUSINESS CORPORATION ACT.

Articles of Share Exchange shall be filed with the Secretary of State of Nebraska as soon as practicable after the Closing. The effective date of Articles of Share Exchange as specified in the Plan of Share Exchange (the "Effective Date") shall be the Closing Date or on such other date as the parties may mutually agree upon. Subject to the terms and conditions of this Agreement and the Plan of Share Exchange, TSA will acquire all of the Grapevine Common Stock in a statutory share exchange pursuant to the Plan of Share Exchange and in accordance with applicable provisions of Delaware and Nebraska law so as to cause each share of Grapevine Common Stock that is issued and outstanding immediately prior to the Effective Date to be exchanged for the number of fully paid and nonassessable shares of TSA Common Stock calculated in accordance with Section 1.02 of this Agreement without further action on the part of any holder thereof.

SECTION 1.04 TAX-FREE REORGANIZATION.

The parties intend to adopt this Agreement as a tax-free plan of reorganization and to consummate the Exchange in accordance with the provisions of Code (Internal Revenue Code of 1986, as amended) Section 368(a)(1)(B). The shares of TSA Common Stock issued in the Exchange will be issued solely in exchange for the issued and outstanding shares of Grapevine Common Stock pursuant to this Agreement, and no other transaction other than

the Exchange represents, provides for or is intended to be an adjustment of the consideration paid for the Grapevine Common Stock. Except for cash paid in lieu of fractional shares or for dissenting shares of Grapevine Shareholders pursuant to their rights under Sections 21-20,137 to 21-20,150 of the Nebraska Business Corporation Act, no consideration that would constitute "other property" within the meaning of Code Section 356 will be paid by TSA for shares of Grapevine Common Stock in the Exchange. In addition, TSA represents that it presently intends, and that at the Effective Date it will intend, to continue Grapevine's historic business or use a significant portion of Grapevine business assets in a business.

SECTION 1.05 POOLING OF INTERESTS.

The parties intend that the transaction be treated as a "pooling of interests" for accounting purposes.

PLAN OF SHARE EXCHANGE

1. The name of the Acquiring Corporation is Transaction Systems Architects, Inc., a Delaware Corporation.
2. The name of the Acquired Corporation is Grapevine Systems, Inc., a Nebraska Corporation.
3. The terms and conditions of the exchange are as follows:

The Shareholders of Grapevine Systems, Inc. ("Acquired Corporation") will exchange all of their shares of common stock of the Acquired Corporation (the "Grapevine Common Stock"), par value .004 cents per share for shares of the Class A Common Stock of Transaction Systems Architects, Inc. (the "Acquiring Corporation"), par value .005 cents per share ("TSA Common Stock").

4. The manner and basis of exchanging the shares of the Acquired Corporation into shares, obligations or other securities of the Acquiring Corporation, or any other corporation, or into cash or other property are as follows:

The terms and conditions of the exchange are more particularly set forth in the Stock Exchange Agreement of July 15, 1996, among Acquiring Corporation, Acquired Corporation and the Principal Shareholders of Acquired Corporation, which Agreement by this reference is made a part hereof. The following is a summary of exchange factors which are pertinent:

- a. On the date of closing of the exchange (the "Closing Date") each share of Class A Grapevine Common Stock outstanding immediately prior to the Closing Date shall be exchanged for .2074 of a share of TSA Common Stock.
- b. On the Closing Date, each share of fully vested Class B Grapevine Common Stock outstanding immediately prior to the Closing Date shall be exchanged for .1971 of a share of TSA Common Stock.

- e. On the Closing Date, each share of seventy-five percent (75%) vested Class B Grapevine Common Stock outstanding immediately prior to the Closing Date shall be exchanged for .1872 of a share of TSA Common Stock.

The total number of shares of TSA Common Stock to be issued in the exchange (i.e., 370,000) and the exchange ratios set forth in items (a) through (e) above shall be adjusted in the event that the average per share closing price of the TSA Common Stock on NASDAQ for the five (5) business days after the Registration Statement on Form S-4 (filed by the Acquiring Corporation) was declared effective by the Securities and Exchange Commission ("Average Closing Price") is less than thirty dollars (\$30.00) per share or more than forty dollars (\$40.00) per share. If the Average Closing Price is less than thirty dollars (\$30.00) per share, then the total number of shares of TSA Common Stock to be issued in the exchange shall be determined by dividing \$11,100,000 (which is 370,000 x \$30.00) by the Average Closing Price. If the Average Closing Price is more than forty dollars (\$40.00) per share, then the total number of shares of TSA Common Stock to be issued in the exchange shall be determined by dividing \$14,800,000 (which is 370,000 x \$40.00) by the Average Closing Price. In the case of either such adjustment, the exchange ratios set forth in items (a) through (e) above shall be adjusted accordingly.

Acquiring Corporation and Acquired Corporation intend this Plan of Share Exchange to be a tax-free plan of reorganization in accordance with the provisions of Section 368(a)(1)(B) of the Internal Revenue Code of 1986 ("Code"), as amended. Cash will only be paid in lieu of fractional shares or for dissenting shares of the shareholders of Acquired Corporation pursuant to their rights under the Nebraska Business Corporation Act. Acquiring Corporation and Acquired Corporation further intend that the transaction be treated as a "pooling of interests" for accounting purposes.

5. This Plan of Share Exchange has been approved in accordance with the Nebraska Business Corporation Act.

A 2-FOR-1 SPLIT OF THE COMPANY'S CLASS A COMMON STOCK AND CLASS B COMMON STOCK WAS EFFECTED JULY 1, 1996. INFORMATION INCORPORATED BY REFERENCE IN THIS PROSPECTUS ON OR AFTER THAT DATE HAS BEEN OR WILL BE ADJUSTED TO REFLECT THE STOCK SPLIT.

RISK FACTORS

IN ADDITION TO THE OTHER INFORMATION IN THIS PROSPECTUS AND THE PROSPECTUS SUPPLEMENT, IF ANY, AND INFORMATION INCORPORATED HEREIN BY REFERENCE, THE FOLLOWING RISK FACTORS SHOULD BE CONSIDERED CAREFULLY IN EVALUATING THE COMPANY AND ITS BUSINESS BEFORE PURCHASING THE CLASS A COMMON STOCK OFFERED BY THIS

PROSPECTUS. UNLESS THE CONTEXT REQUIRES OTHERWISE, AS USED IN THIS PROSPECTUS, "TSA" OR THE "COMPANY" MEANS TRANSACTION SYSTEMS ARCHITECTS, INC. AND ALL OF ITS SUBSIDIARIES.

RELIANCE ON BASE24; LACK OF PRODUCT DIVERSIFICATION

The Company has derived a substantial majority of its total revenues from licensing its BASE24 family of software products and providing services and maintenance related to those products. The BASE24 products and related services and maintenance are expected to provide the substantial majority of the Company's revenues in the foreseeable future. The Company's results will depend upon continued market acceptance of its BASE24 products and related services as well as the Company's ability to continue to adapt and modify them to meet the changing needs of its customers. Any reduction in demand for, or increase in competition with respect to, BASE24 products would have a material adverse effect on the Company's financial condition and results of operations.

INTERNATIONAL OPERATIONS

The Company has derived a majority of its total revenues from sales to customers outside the United States. International operations generally are subject to certain risks, including difficulties in staffing and management, reliance on independent distributors, fluctuations in foreign currency exchange rates, compliance with foreign regulatory requirements, variability of foreign economic conditions and changing restrictions imposed by U.S. export laws. There can be no assurance that the Company will be able to manage the risks related to selling its products and services in international markets.

DEPENDENCE ON BANKING INDUSTRY

The Company's business is concentrated in the banking industry, making the Company susceptible to a downturn in that industry. For example, a decrease in bank spending for software and related services could result in a smaller overall market for EFT software. Furthermore, U.S. banks are continuing to consolidate, decreasing the overall potential number of buyers for the Company's products and services. These factors as well as others negatively affecting the banking industry could have a material adverse effect on the Company's financial condition and results of operations.

RELATIONSHIP WITH TANDEM

Historically, the Company has derived a substantial portion of its total revenues from the licensing of software products that operate on Tandem computers. The BASE24 product line runs exclusively on Tandem equipment. These products are expected to provide a substantial portion of the Company's revenues in the foreseeable future. The Company's future results depend on market acceptance of Tandem computers and the financial success of Tandem. Tandem securities are publicly traded and its financial statements are publicly available. Any reduction in demand for these computers or in Tandem's ability to deliver products on a timely basis could have a material adverse effect on the Company's financial condition and results of operations.

Although the Company has several written agreements with Tandem, none of those agreements governs the primary relationship between the Company and Tandem, which is that the Company's major product line, BASE24, runs exclusively on Tandem computers. While the cooperation and past affiliation between the Company and Tandem have facilitated the Company's ability to develop and market Tandem-compatible products, this cooperation is not mandated by contract, and the cessation of such cooperation would adversely affect the Company's business. None of the Company's agreements with Tandem would protect the Company if Tandem's cooperation ceased or if Tandem were unable to deliver products on a timely basis. The written agreements cover such discrete matters as commissions on the sale of certain Tandem products, certain limited resales by the Company of Tandem products and the distribution of the Company's products by Tandem affiliates in a limited number of countries.

MANAGEMENT OF GROWTH

The Company is experiencing a period of growth which is placing demands on its managerial and operations resources. The Company's inability to manage its growth effectively or to maintain its current level of growth could have a material adverse effect on its financial condition and results of operations.

ATTRACTION AND RETENTION OF KEY PERSONNEL

The Company's success depends on certain of its executive officers, the loss of one or more of whom could have a material adverse effect on the Company's financial condition and results of operations. None of the Company's U.S.-based executive officers is a party to an employment agreement. The Company believes that its future success also depends on its ability to attract and retain highly-skilled technical, managerial and marketing personnel, including, in particular, additional personnel in the areas of

research and development and technical support. Competition for personnel is intense. There can be no assurance that the Company will be successful in attracting and retaining the personnel it requires.

COMPETITION

The market for EFT software is highly competitive. Many applications software vendors offer products that are directly competitive with BASE24 and other products of the Company. The Company also experiences competition from software developed internally by potential customers and experiences competition for its consulting services from professional services organizations. In addition, processing companies provide services similar to those made possible by the Company's products. Many of the Company's current and potential competitors have significantly greater financial, marketing, technical and other competitive resources than the Company. Current and potential competitors, including providers of transaction-based software, processing, or professional services, may establish cooperative relationships with one another or with third parties to compete more effectively against the Company. It is also possible that new competitors may emerge and acquire market share. In either case, the Company's financial condition and results of operations could be adversely affected.

NEW PRODUCTS AND TECHNOLOGICAL CHANGE

The market for software in general is characterized by rapid change in computer hardware and software technology and is highly competitive with respect to the need for timely product innovation and new product introductions. The Company believes that its future success depends upon its ability to enhance its current applications and develop new products that address the increasingly complex needs of customers. In particular, the Company believes that it must continue to respond quickly to users' needs for additional functionality and multi-platform support. The introduction and marketing of new or enhanced products requires the Company to manage the transition from current products in order to minimize disruption in customer purchasing patterns. There can be no assurance that the Company will continue to be successful in the timely development and marketing of product enhancements or new products that respond to technological advances, that its new products will adequately address the changing needs of the domestic and international markets or that it will successfully manage the transition from current products.

The Company is continually developing new products, product versions and individual features within a large, complex software system. Development projects can be lengthy and are subject to

changing requirements, programming difficulties and unforeseen factors which can result in delays in the introduction of new products and features. Delays could have a material adverse effect on the Company's financial condition and results of operations.

In addition, new products, versions or features, when first released by the Company, may contain undetected errors that, despite testing by the Company, are discovered only after a product has been installed and used by customers. To date, undetected errors have not caused significant delays in product introduction and installation or required substantial design modifications. However, there can be no assurance that the Company will avoid problems of this type in the future.

A substantial majority of the Company's license fee revenue is generated by licenses for software products designed to run on fault-tolerant or mainframe computers. Industry sources indicate that sales of mainframe computers are declining on a unit basis, and the Company expects this trend to continue. The Company has developed, and continues to develop, certain products for other platforms, but to date revenues from these products have not been significant. There can be no assurance that the Company will be successful in selling these software products or other products under development. The Company's failure in this regard could have a material adverse effect on its financial condition and results of operations.

DEPENDENCE ON PROPRIETARY TECHNOLOGY

The Company relies on a combination of trade secret and copyright laws, nondisclosure and other contractual and technical measures to protect its proprietary rights in its products. There can be no assurance that these provisions will be adequate to protect its proprietary rights. In addition, the laws of certain foreign countries do not protect intellectual property rights to the same extent as the laws of the United States. Although the Company believes that its intellectual property rights do not infringe upon the proprietary rights of third parties, there can be no assurance that third parties will not assert infringement claims against the Company.

VARIABILITY OF QUARTERLY OPERATING RESULTS

The Company's quarterly revenues and operating results may fluctuate depending on the timing of executed contracts, license upgrades and the delivery of contracted business during the quarter. In addition, quarterly operating results may fluctuate due to the timing of the Company's hiring of additional staff, new product development and other expenses. No assurance can be given

that operating results will not vary due to these factors. Fluctuations in quarterly operating results may result in volatility in the Company's stock price.

CUSTOMER CANCELLATION OF CONTRACTS

The Company derives a substantial portion of its total revenues from maintenance fees and monthly software license fees pursuant to contracts which the customer has the right to cancel. A substantial number of cancellations of these maintenance or monthly license fee contracts would have a material adverse effect on the Company's financial condition and results of operations.

POSSIBLE VOLATILITY OF STOCK PRICE

The stock market has from time to time experienced extreme price and volume fluctuations, particularly in the high technology sector, which have often been unrelated to the operating performance of particular companies. Any announcement with respect to any variance in revenue or earnings from levels generally expected by securities analysts for a given period could have an immediate and significant effect on the trading price of the Class A Common Stock. In addition, factors such as announcements of technological innovations or new products by the Company, its competitors or other third parties, as well as changing market conditions in the computer software or hardware industries, may have a significant impact on the market price of the Class A Common Stock.

CONTROL BY EXISTING STOCKHOLDERS

The Company's directors and officers and their affiliates in the aggregate beneficially own a substantial percentage of the outstanding Class A Common Stock. As a result, these stockholders, if acting together, would be able to influence most matters requiring approval by the Company's stockholders, including the election of directors. In addition, the Company's Certificate of Incorporation contains provisions that may discourage acquisition bids for the Company. The effect of such provisions may be to limit the price that investors might be willing to pay in the future for shares of the Class A Common Stock.

THE COMPANY

The Company develops, markets and supports a broad line of software products and services primarily focused on facilitating electronic payments and electronic commerce. The Company's

software products are used to process transactions involving credit cards, debit cards, smart cards, checks, automated teller machines (ATM), point-of-sale (POS) terminals, manned teller devices, home banking, wire transfers and automated clearing house (ACH) functions. The Company's products and services assist customers in operating large, complex networks performing such functions as transaction authorization, transaction routing, debit and credit card management, transaction settlement and reporting.

The Company was formed for the purpose of acquiring Applied Communications, Inc. and Applied Communications Inc. Limited, which were acquired on December 31, 1993. On January 3, 1994, the Company acquired U.S. Software, Inc. The principal executive offices of the Company are located at 330 South 108th Avenue, Omaha, Nebraska 68154, and its telephone number is (402) 390-7600.

SECURITIES COVERED BY THIS PROSPECTUS

This Prospectus relates to 1,500,000 shares of Class A Common Stock which may be offered and issued or reserved for issuance by the Company from time to time in connection with the acquisition by the Company, directly or indirectly, of other businesses or properties, or interests therein. It is expected that the terms of acquisitions involving the issuance of Class A Common Stock covered by this Prospectus will be determined by direct negotiations with the owners or controlling persons of the businesses or properties, or interest therein, to be acquired by the Company, or, in the case of entities that are more widely held, through exchange offers to stockholders or documents soliciting stockholder approval of mergers, consolidations, plans of share exchange, or sales of assets. It is also expected that the shares of Class A Common Stock issued will be valued at prices reasonably related to quoted market prices either at the time the terms of an acquisition are agreed upon or at or about the time of delivery of such shares.

DESCRIPTION OF CAPITAL STOCK

The Company's Amended and Restated Certificate of Incorporation provides that authorized capital stock of the Company consists of 50,000,000 shares of Class A Common Stock, par value \$0.005 per share, 5,000,000 shares of Class B Common Stock, par value \$0.005 per share, and 5,450,000 shares of preferred stock, par value of \$0.01 per share. Unless otherwise indicated, references in this Prospectus to "Common Stock" refer to both the Company's Class A Common Stock and Class B Common Stock.

COMMON STOCK

The Class A Common Stock and Class B Common Stock have the same rights except that holders of Class B Common Stock are not entitled to vote except as provided by law. Holders of Class A Common Stock are entitled to one vote per share on all matters to be voted on by the stockholders. Subject to preferences that may be applicable to any preferred stock outstanding at the time, holders of Common Stock are entitled to receive ratably such dividends, if any, as may be declared from time to time by the Board of Directors out of funds legally available therefor. In the event of a liquidation, dissolution or winding up of the Company, holders of all Common Stock are entitled to share ratably in all assets remaining after payment of the Company's liabilities and the liquidation preference, if any, of any outstanding preferred stock. Holders of Common Stock have no preemptive rights and no rights to convert their Class A Common Stock into any other securities, and there are no redemption provisions with respect to shares of Common Stock. All of the outstanding shares of Common Stock are fully paid and non-assessable. The rights, preferences and privileges of holders of Common Stock are subject to, and may be adversely affected by, the rights of the holders of shares of any series of preferred stock which the Company may designate and issue in the future.

PREFERRED STOCK

The Board of Directors has the authority, without any further vote or action by the stockholders, to provide for the issuance of up to 5,450,000 shares of preferred stock from time to time in one or more series with such designations, rights, preferences and limitations as the Board of Directors may determine, including the consideration received therefor; the number of shares comprising each series, dividend rates, redemption provisions, liquidation preferences, sinking fund provisions, conversion rights and voting rights, all without approval by the holders of Common Stock. Although it is not possible to state the effect that any issuance of preferred stock might have on the rights of holders of Common Stock, the issuance of preferred stock may have one or more of the following effects (i) restrict Common Stock dividends if preferred stock dividends have not been paid, (ii) dilute the voting power and equity interest of holders of Common Stock, or (iii) prevent current holders of Common Stock from participating in the Company's assets upon liquidation until any liquidation preferences granted to holders of preferred stock are satisfied. In addition, the issuance of preferred stock may, under certain circumstances, have the effect of discouraging a change in control of the Company by, for example, granting voting rights to holders of preferred stock that require approval by the separate vote of the holders of preferred stock for any amendment to the Company's Amended and Restated Certificate of Incorporation or any reorganization,

consolidation, merger (or other similar transaction involving the Company). As a result, the issuance of such preferred stock may discourage bids for the Company's Common Stock at a premium over the market price therefor and could have a material adverse effect on the market value of the Common Stock. No shares of preferred stock are currently outstanding.

REGISTRATION RIGHTS

Certain rights with respect to registration of their stock under the Securities Act exist for holders of shares of Common Stock issued upon conversion of the Company's Senior Convertible Preferred Stock ("Senior Conversion Shares"), holders of shares of Common Stock issued upon exercise of certain stock purchase warrants ("Warrant Exercise Shares"), and holders of shares of Common Stock issued upon conversion of the Company's Junior Convertible Preferred Stock, shares of Class A Common Stock issuable upon exercise of stock options issuable to employees of the Company pursuant to the Company's Incentive Stock Option Plan and certain other shares of Class A Common Stock (collectively "Junior Restricted Stock"). The Senior Conversion Shares, Warrant Exercise Shares, and Junior Restricted Stock are hereafter collectively referred to as the "Restricted Stock." The registration rights arise pursuant to an agreement entered into at the time of the sale of underlying shares of Preferred Stock and warrants. Holders of not less than 30% of the outstanding Senior Conversion Shares may demand that the Company register for sale all or a portion of their shares. With certain exceptions, the Company is not generally required to effect more than two such registrations. In the event that the holders making the demand request registration of less than all their Senior Conversion Shares, the Company is required to effect a registration only if the demand covers at least 20% of the total number of Senior Conversion Shares originally issued (or a lesser percentage if the reasonably anticipated aggregate public offering price would exceed \$5,000,000). Subject to certain limitations, at such time as the Company is eligible to register its shares on Form S-3, holders of the Warrant Exercise Shares may demand, on one occasion, that the Company register Warrant Exercise Shares on that form, provided that the reasonably anticipated aggregate offering price would exceed \$4,000,000. Furthermore, if the Company proposes to register any of its securities, either for its own account or that of selling security holders, the Company is required to notify holders of Restricted Stock, and subject to certain limitations, to include in such registration all the shares requested to be included by such holders. The Company is generally obligated to bear the expenses, other than underwriting discounts and sale commissions, of all of these registrations and to indemnify the sellers against certain liabilities, including liabilities under the Securities Act.

LIMITATION OF LIABILITY

The Company's Amended and Restated Certificate of Incorporation limits the liability of directors to the maximum extent permitted by Delaware law. Delaware law provides that directors of a corporation will not be personally liable for monetary damages for breach of their fiduciary duties as directors, including gross negligence, except liability for (i) breach of the directors' duty of loyalty, (ii) acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of the law, (iii) the unlawful payment of a dividend or unlawful stock purchase or redemption and (iv) any transaction from which the director derives an improper personal benefit. Delaware law does not permit a corporation to eliminate a director's duty of care, and this provision of the Company's revised Restated Certificate of Incorporation has no effect on the availability of equitable remedies, such as injunction or rescission, based upon a director's breach of the duty of care.

The Company's Amended and Restated Certificate of Incorporation authorizes the Company to purchase and maintain insurance for the purpose of indemnification.

DELAWARE LAW

Under Section 203 of the Delaware General Corporation Law ("Section 203"), certain "business combinations" between a Delaware corporation whose stock generally is publicly traded or held of record by more than 2,000 stockholders and an "interested stockholder" are prohibited for a three-year period following the date that such stockholder became an interested stockholder, unless (i) the corporation has elected in its original certificate of incorporation not to be governed by Section 203 (the Company did not make such an election), (ii) the business combination was approved by the board of directors of the corporation before the other party to the business combination became an interested stockholder, (iii) upon consummation of the transaction that made it an interested stockholder, the interested stockholder owned at least 85% of the voting stock of the corporation outstanding at the commencement of the transaction (excluding voting stock owned by directors who are also officers or held in employee benefit plans in which the employees do not have a confidential right to tender or vote stock held by the plan) or (iv) the business combination was approved by the board of directors of the corporation and ratified by two-thirds of the voting stock which the interested stockholder did not own. The three-year prohibition also does not apply to certain business combinations proposed by an interested stockholder following the announcement or notification of certain extraordinary transactions involving the corporation and a person who had not been an interested stockholder during the previous three years or who became an interested stockholder with the

approval of the majority of the corporation's directors. The term "business combination" is defined generally to include mergers or consolidations between a Delaware corporation and an "interested stockholder," transactions with an "interested stockholder" involving the assets or stock of the corporation or its majority-owned subsidiaries and transactions which increase an interested stockholder's percentage ownership of stock. The term "interested stockholder" is defined generally as a stockholder who, together with affiliates and associates, owns (or, within three years prior, did own) 15% or more of a Delaware corporation's voting stock. Section 203 could prohibit or delay a merger, takeover or other change in control of the Company and therefore could discourage attempts to acquire the Company.

TRANSFER AGENT AND REGISTRAR

The transfer agent and registrar of the Class A Common Stock is Norwest Bank Minnesota, N.A.
